

April 15, 2020

Dear Friends,

All of us at Thermador send you and your loved ones our best wishes and positive thoughts during this unprecedented current climate. We hope you are safe and well.

During this time, when many of us are sheltering in place, we would like to make sure that we are available to you and your businesses. Our internal Thermador Design & Build Experts are accessible and here to assist you with any related topics, help with product questions, assistance with locating key design or consumer resources and project business/information about working with our brand.

In addition, we have curated some helpful design content and have included some quick links below. We will continue to create new strategies to help us maneuver our businesses and to continue to foster our communication with you. This is a time where we find ourselves thinking of new ideas that may be outside the box and we would welcome your feedback.
