

# Experience perfection in Dishwashing.

Introducing the all-new range of Siemens dishwashers with innovative technologies like **Home Connect**,<sup>^</sup> **3-Stage rackMatic basket**, **Touch panel features** which bring convenience to your fingertips.

Siemens Home Appliances

**SIEMENS**

B&H Group is a Trademark Licensee of Siemens AG.

# Experience perfection in Dishwashing.

Introducing the all-new range of Siemens dishwashers with innovative technologies like **Home Connect**, **3-Stage rackMatic basket**, **Touch panel features** which bring convenience to your fingertips.

**SIEMENS**

Siemens Home Appliances

"I won't sell the future, for a quick profit."  
- Werner Von Siemens (1816 – 1892)

Siemens AG was founded as the Siemens & Halske Telegraph Construction Company by Werner Von Siemens and J.G Halske in 1847. Siemens and Halske manufactured the first pointer telegraph in Berlin. Siemens is regarded as a technology giant in over 200 countries. Significant contributions in the fields of energy, communications, information, transportation, healthcare, components and lighting.

# Evolution

Siemens is the most awarded Dishwasher brand in the world.

Cutting edge features  
for that extra shine.

Designed to fit in and around your busy lifestyle, our standard 60cm dishwasher features efficient, time saving and environmentally conscious programmes that are going to make your dishes shine. With sleek and stylish design, both inside and outside, Siemens dishwashers are designed to complement your home.

# What happens inside?

Four stages in the washing cycle.

## Pre-rinse

The pre-rinse cycle effectively wipes out every stubborn food particle stuck on the utensils by using hot water to pre-wash. Followed by this process, the machine drains out the water.

## Washing Cycle

In the wash cycle, hot water plays an important role. Once the process is complete, the machine seamlessly drains out all the water.

## Rinsing

For every rinse cycle, the system instinctively takes fresh hot water inside the Siemens Dishwasher. Due to the added Rinse Aid, the surface tension of the water drops resulting in dry and sparkling clean dishes, leaving no trace of water spots.

## Drying

The inner walls of the dishwasher are heated as hot water is used during the wash cycles. During the drying process, heat from the walls is released which ensures 100% drying of utensils.

When it comes to automated dishwashing, to begin with, you DO NOT need to manually rinse the utensils. Just scrape off the leftovers present on the utensils before loading them. Place the dishes in the dishwasher and when the loading is complete, select one of the many programmes tailor-made to take care of your utensils. Just wait for the washing to complete to get dry, shiny and hygienic utensils.

# Crafted for a sparkling and hygienic experience!

When it comes to greasy utensils and germs, our 70°C hot water wash makes sure that your dishes are 99.99% germ-free with a squeaky clean shine and an odour-free experience.

**70°C** Hot Water Wash

**99.99%** Kills Germs

## We help you save on what matters the most!

Two of the most important things we can save and do our environment a world of good is in electricity & water. Our dishwashers work efficiently by consuming just 9.5 litres of water and less than a unit of energy per wash.

Save loads of water & electricity too!

Enhance the orderliness  
within your kitchen

Get used to an immaculate kitchen as your utensils perfectly fall in line and stack up, giving you more space and convenience.

## rackMatic: for your flexible needs

Leap into the power of innovation with utmost flexibility offered by the 3-Stage rackMatic basket which comes with the smart clip that helps you adjust at 3 levels vertically making sure that everything finds its place- from large pans to small plates.

# Home Connect<sup>^</sup>: Surround yourself with smartness.

Control your dishwasher through the Home Connect<sup>^</sup> mobile app and in just a few taps unravel the future of connectivity anywhere, anytime.

**Remote Monitoring & Controlling**  
Experience a smart way to track every move of your dishwasher. With a few taps, you can get easy access to current status of your dishwasher on the go. This includes starting and ending a program, notifications when the washing is done and also enabling you to adjust the settings from a remote location.

**Downloadable Programs\***  
The Home Connect<sup>^</sup> app allows you to seamlessly download the program of your choice as per your cleaning and specific utensil requirements.

**Notification & Reminder**  
Getting notifications like low rinse aid/salt levels and low detergent levels can be as easy and effortless. The Home Connect<sup>^</sup> app brings to you all the important updates right on your mobile phone or smart watch and also reminds you to buy a new package of tablets when needed.

**Remote Diagnostics\***  
Our advanced systems empower our customer service to remotely determine the issue. This further aids our technicians to assist you better as they are aware of the issue reducing time and effort at both ends.

**Voice Assistance**  
It seamlessly integrates with Alexa and Google Assistant. Just by your mere voice, you can easily switch your dishwasher on and off. The voice control function also gives you a check on the duration of the washing cycle.

**Easy Start Assistance**  
Discover a world of convenience that guides you on your dish cleaning preferences in accordance to your dish type. It also recommends the ideal programmes/ options to be used anywhere, anytime.

**Favorites**  
The Home Connect<sup>^</sup> app powers you to save all your favorite programs on the home screen for easy access and better navigation.

**Appliance software update through Home Connect<sup>^</sup>.**

\*Home connect<sup>^</sup> is currently available in 9 cities (Mumbai, Pune, Bangalore, Hyderabad, Chennai, Jaipur, Kolkata, Ahmedabad, Delhi) and will be available in the other cities very soon. Remote diagnostics and downloadable programme will be available soon in India.

Dry efficiently  
and rapidly  
with **Zeolith**  
Technology

Zeolith®, super-efficient drying patented technology.

Drying phase Zeolith® absorbs moisture and converts it to heat energy.

Cleaning phase as the mineral is heated during the cleaning cycle, it is recharged and ready to absorb moisture once more.

The mineral zeolite has the ability to absorb moisture and convert it into energy. The versatile material thus ensures faster, energy-efficient drying of your dishes.

**Fast enough to break world record**

Siemens dishwashers are powered by Zeolith® drying technology which reduces the complete cycle by 28% than regular dishwashers. This makes us, by a fair distance, the fastest in the world. That's not it; the energy consumption too is at a record 0.8 kWh with a phenomenally quick wash time.

**The revolutionary Zeolith® drying technology**

Take a leap into the future as your dishes are dried up exceptionally fast and super efficiently. Zeolite is a natural mineral that is capable of absorbing moisture and converting it into thermal energy. This heat is emitted, drying your dishes - even plastics, quickly and energy-efficiently.

## Greater overview, more convenience

Our touch panel is not only beautiful, but also intuitive in design and utterly convenient. Sleek in appearance and crafted exquisitely, it offers all functions at your fingertips.

## Dosing with precision

The dosageAssist feature drops the tablet into a specially designed tray making sure the water jets precisely target the tablet resulting in an accurate and even dissolution giving you the efficient utilization.

## Features that excite your imagination

### Innovated for indian utensils

When it comes to an Indian kitchen, utensil stains and space are two things that are a cause of concern. Not anymore. The intensive 70° C cleaning ensures that toughest oily & greasy masala stains on pots & pans are taken care of with ease while making sure all fit in seamlessly.

### Protects your delicate glassware / crockery

Our dishwashers are glass-aware of your glass ware. Thanks to the 40°C Glass dedicated program that gently washes your glassware & crockery, giving it sparkling shine while avoiding breakage.

### varioSpeedPlus

Sparkling clean dishes in the quickest possible time is what everyone wants. Exactly the reason we have the varioSpeedPlus feature for our range of dishwashers that saves up to 66% of wash time. All it takes is a touch of a button.

### iQdrive

Siemens Dishwashers are powered by the revolutionary iQdrive motor which is quieter, faster and more efficient. They improve the energy performance of the dishwasher. Set your dishwasher to use less energy while maintaining the same performance level. Its innovative magnetic technology drives the iQdrive without friction for a virtually wear free operation.

### Half Load

Standing true to its name, the half load does its job of seamlessly washing half the load of dishes while saving on water and energy. A perfect option in case you are in a hurry or have a lesser load.

### easyGlide

The smooth-running pull-outs allow the baskets to glide smoothly and quickly, making it particularly convenient to put them in and take them out, even when fully loaded.

The Tablet contains a mixture of Detergent, Dishwashing Salt and Rinse Aid. One tablet is ideal for one wash cycle.

## Contact Siemens

Your local Siemens dealer will be pleased to provide more detailed information and advice you on your choice of appliance. However, if you have questions or comments about any of our appliances, we would be pleased to hear from you.

Every Siemens appliance is carefully created to the exacting standard that our customers deserve. There is no compromise, no cutting corners, owning a Siemens appliance brings confidence and style to your home life. We draw on many years of manufacturing experience and feedback with customers to design machines that meet your everyday needs. Extensive research and testing of every component gives you a level of confidence that will last for many years.

### Customer Care

Siemens has been the pioneer of in-house customer care service. This is because once you own a Siemens appliance, you'll own it for a lifetime. Our in-house customer service is geared up to solve all your problem send queries.
