**EUROPE'S
BRAND NO.1***

*For major domestic appliances.
Source: Euromonitor, volume sales, 2015

“It has always been an unbearable thought to me that someone could inspect one of my products and find it inferior in some way. For that reason I have consistently tried to produce products which can withstand the closest scrutiny – products which prove themselves to be superior in every respect.”

Robert Bosch 1861-1942

Our Small Home Appliances are in good shape.

Awards and prizes for design.

reddot International Design Award

This is the most famous and widely known award presented for the most successful and attractive design. Appliances that have been awarded with reddot prize are considered to be the best in their field.

Produkte des Jahres

'The product of the year' is being chosen for the last 25 years by the Consumer Products Manufacturers' Union. Independent jury is evaluating the products by the following criterias: functionality, design, creativity.

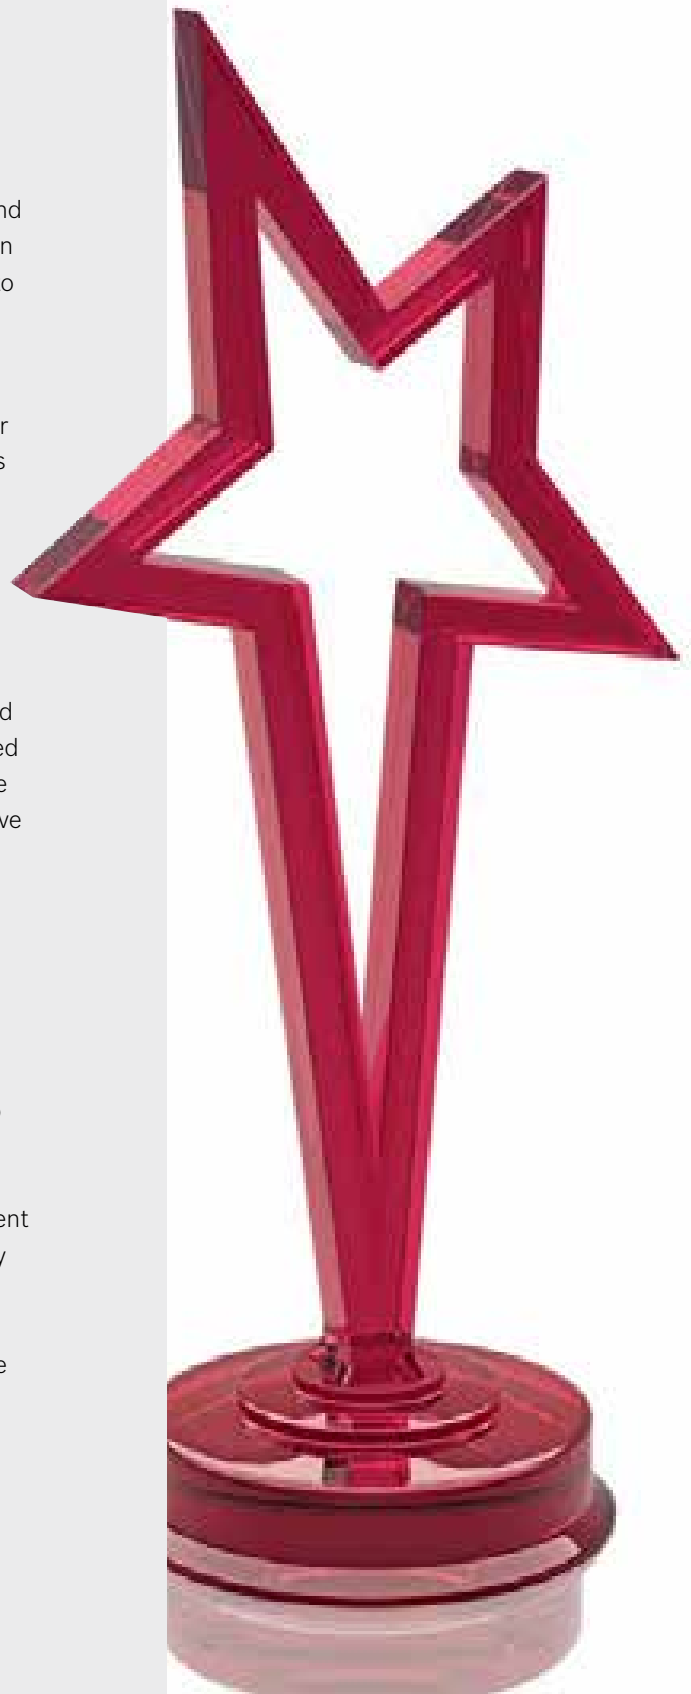

IF design award

This is one of the most significant awards for the best design which is being presented annually since 1953. World's most respected experts of design choose the product of the year with the best design. Products that have been honoured with this award are notable for dynamic and modern design.

Stiftung Warentest

Stiftung Warenst Comparative Testing Institution was founded in Berlin in 1964. Comparative testings of the products and services that it conducts help customers to find their way in a complicated market of goods and make right purchasing decisions. Comparative testings are held in independent testing laboratories all over the world. Many of Bosch appliances have passed their exams in Stiftung warentest and have been honoured with 'GUT' – 'good' – and became the winners of the tests.

Serie | 8

To you, perfection is paramount. It manifests in form, function and a surprising ease of use. This high expectation can be perceived throughout your home, where everything is of high quality and thought through to the last detail. Of course, also your home appliances excel with excellent quality results and stand out with first-class design:

These are the home appliances of Series 8.

Serie | 6

You lead an active, sustainable lifestyle. You care about real benefits instead of technical gadgets. You opt for a timeless design and not for temporary trends. You trust the experience and expertise of a brand with a long tradition when you buy home appliances:

These are the home appliances of Series 6.

Serie | 4

As a family-oriented person you have a real talent for organisation. No matter how chaotic things get, you stay on top of the situation and keep things in order. Therefore, you look for home appliances that are easy to operate and that fully support your lifestyle. You require a brand that truly understands your needs:

These are the home appliances of Series 4.

Serie | 2

You have lots of hobbies and like to spend your free time doing things you enjoy; but housework is not one of them. Home appliances to you are objects to use and not to think about. They need to be dependable workhorses that deliver efficient value for the money:

These are the home appliances of Series 2.

Why Bosch Refrigerators?

Energy and freshness saving refrigerators from Bosch.

Save more, waste less. Our new range of fridge-freezers save you money thanks to their energy efficiency ratings and clever technology.

Enough space for all your groceries. And each and every vitamin.

You can never have enough fresh food in your fridge. Whether you need lots of ingredients for a dinner party or want to build up a stock of fresh food – sometimes you just need more room. Our new NoFrost fridges offer more than 550 litres of storage space for every big shopping trip – and loads of healthy food.

A healthy diet has never been so easy.

Only what's really fresh is really healthy. Our new NoFrost fridges help you to maintain a healthy diet, because their VitaFresh freshness systems create optimum storage conditions for all your fresh food. Essential vitamins and nutrients are preserved for substantially longer, making it easy for you to enjoy fresh food every day – even without frequent grocery shopping. That's what we call: healthy living, made easy.

VitaFresh Pro

The Series 8 fridges feature our best freshness system VitaFresh pro. It keeps food fresh for substantially longer with temperatures from -1°C to $+3^{\circ}\text{C}$ while maintaining the perfect humidity level. This combination of temperature and humidity protects all the aromas, essential nutrients and valuable vitamins in your fresh food. Hence, it is easier than ever to maintain a healthy diet with fresh fruit and vegetables every day.

VitaFresh

Our Series 4 fridges with VitaFresh freshness system and 559 litres of storage space guarantee ideal storage conditions for fresh food, frozen food and drinks. You can be certain that the fine aromas, essential nutrients and valuable vitamins of your food will be preserved for longer, enabling you to enjoy a varied and healthy diet.

FreshSense

Thanks to inner and outer temperature control sensors of Bosch fridges with FreshSense technology inside temperature is maintained on the same level regardless of outside temperature. Therefore, optimum storage conditions for products are provided. Besides all, products preserve their natural taste and vitamins.

VitaFresh Plus

The Series 6 fridges are the next big thing. They offer 559 litres of storage space and thus plenty of room for fresh food, drinks and even big pots and bowls. Additionally, the VitaFresh plus freshness system guarantees optimal storage conditions. It ensures that the aromas, nutrients and vitamins in fish, meat, fruit and vegetables stay fresh for much longer. Now you only need to ask yourself what to buy – not how much: it will all fit.

NoFrost

With a NoFrost model, the humidity in the air is collected on the central fin evaporator rather than building up in the appliance or on the foods. This chiller, which draws the warmth out of the freezer area, automatically defrosts from time to time. The resultant condensation is taken to the outside and evaporated using the compressor warmth in a special collecting pan. This lowers humidity in the appliance, which means that almost no ice forms. So you don't need to worry about defrosting any more.

LowFrost – considerably less defrosting.

LowFrost saves you a lot of work by considerably reducing the formation of ice. As a result, SmartCool fridge freezers have to be defrosted a lot less often, the drying out of the frozen goods is prevented and the energy consumption remains constant. But even if defrosting is needed we have a solution at hand: quick and easy through the drain hose.

A+

Hygienic cleanliness even at low temperatures. Never mind if your favourite blanket is also your dog's favourite.

ActiveOxygen™ technology will eliminate up to 99.99%* of bacteria and germs – even at low temperatures.

Whether it's a silk blouse, band T-shirt, black jeans, high-performance sportswear, your child's favourite outfit or delicate lingerie, ActiveOxygen™ technology from Bosch will eliminate up to 99.99%* of bacteria and germs typically found in clothing – even at low temperatures.

Simply at the push of a button and without any chemical additives. In addition, ActiveOxygen™ preserves delicate fabrics and protects their colours. Meaning your favourite clothes will stay your favourites for a very long time.

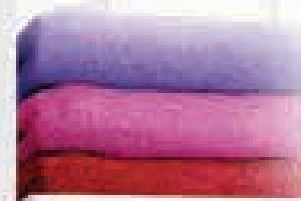

Up to 99.99% reduction von E. coli, C. albicans, S. enterica, A. brasiliensis, S. aureus, Bakteriophage MS2 in the "Fast/mix cold" program with regular liquid detergent in the recommended amount and a 4 kg load – test MB 7623/15 of 29 Juli 2015 at the wfk – Institut für Angewandte Forschung GmbH for BSH Hausgeräte GmbH.

 **Active
Oxygen** | Removes up to
99.99%*
of bacteria

- ActiveOxygen is a natural substance consisting of oxygen molecules which is produced inside the machine.
- ActiveOxygen option can be added to most washing programmes.
- When the wash cycle starts, a cold ActiveOxygen fog pretreats your laundry without any chemicals.
- At the end of the wash cycle, a second cold ActiveOxygen fog removes remaining germs from your load.
- In total, both treatments last 45 minutes in order to reliably remove up to 99.99%* of bacteria and germs from your laundry.

ActiveOxygen™ technology

Often, our favourite items of clothing are made from delicate materials. To take special care of them, we have developed ActiveOxygen™ technology. The intelligent function in our new 8 Series washing machines protects your laundry as it washes – for a hygienic clean, even at very low temperatures.

ActiveOxygen™ Refresh

Clothes that are clean but, for instance, no longer smell great following a trip to a restaurant can be completely freshened up again in 45 minutes with the programme ActiveOxygen™ Refresh. It is even suitable for highly delicate fabrics that are not supposed to be machine-washed. The ActiveOxygen™ Refresh programme saves you time and a trip to the dry cleaner's, and also protects the fibres of the fabrics.

EcoSilence Drive

Thanks to EcoSilence system, the new washing machines from Bosch are not just gentle on your laundry – they're also gentle on your ears. This means that you can even run the washing machine at night without a moment's hesitation. In addition, thanks to its unique design the drum spins in a way that is gentle on fabrics. And all this without disturbing anyone!

i-Dos system

Once activated, the i-DOS system doses the detergent automatically, precise down to the nearest milliliter. Integrated sensors detect the type of fabric, the load volume in the drum and the degree of soiling, and individually adjust the detergent dosing accordingly. This means you achieve perfect washing results while saving water and detergent.

Eco Perfect

Select EcoPerfect for some impressive electricity savings. For a full 8 kg load of washing, thanks to EcoPerfect you use 30% less electricity than the qualifying.

Speed Perfect

If you select SpeedPerfect, you can save up to 60% time depending on the program and still get a stunning wash performance. For instance, you can wash 5 kg of washing in just 60 minutes for perfectly clean results.

Keep your laundry clean till it reaches the shelf.

Modern tumble dryers offers a fast and convenient way to help you keep on top of the household laundry. Not only are they surprisingly cheap to run, but they can help protect your clothing and save you the time and effort of outside line drying or having to dry clothes indoors on rainy days.

Self Cleaning Condenser

The SelfCleaning Condenser™ from Bosch cleans itself automatically - water extracted during the drying cycle is used to flush the condenser, removing the lint. This means no more manual cleaning and your dryer is guaranteed to operate within the best efficiency class for the life of your appliance.

Benefits of Bosch dishwashers.

Whisper quiet washing.

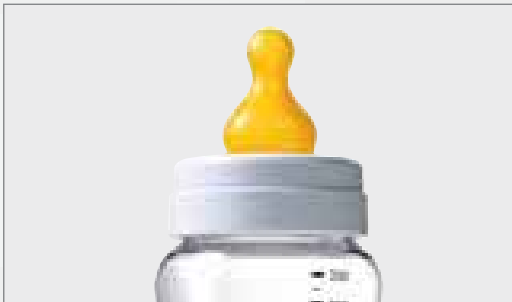

With its revolutionary **EcoSilence Drive™** our quietest dishwasher generates just 38 decibels[†], which is quieter than a bee buzzing, and less intrusive.

Zero to clean in 20 minutes.

TurboSpeed gets your dishes clean in just 20 minutes, and dried in a further 10 when you select the Extra Dry option.

Do things faster.

Get hygienically clean dishes 66% faster with VarioSpeed Plus and still deliver brilliantly clean results.

HygienePlus

Select the new Hygiene Plus option for a hotter final rinse— perfect for cooking utensils, glass jars, chopping boards and baby bottles.

Vario drawer plus

VarioDrawer plus (third loading level) allows for easy loading and unloading of cutlery, with room for espresso cups, larger kitchen utensils and while freeing more space in the bottom basket creates a loading capacity for 15 place settings.

Bosch - world's brand No1 among dishwashers. *

**WORLD'S
BRAND No.1** *

*Bosch is number 1 brand worldwide for dishwashers

Benefits of Bosch cookers.

Wok Function-Great Performance

The feature of our ovens is a powerful wok-style burner which provides an intense heat to the pan of up to 3.6 KW. This makes it suitable for heavy wok frying especially for traditional Asian cooking.

XXL volume in standard size.

The external dimensions of the new ovens are the same but the inner cavity has become larger in size. There is no other 60 cm wide oven which offers as much space with a capacity of up to 72 liters. With large baking trays these ovens offer space for loads of pastries as well as for a large turkey.

The catalytic cleaning aid initiates the cleaning process during baking and roasting.

Thanks to special catalytic coating of oven's back wall fat, dirt and food particles that stick to it during cooking process, oxidate and get burnt, thus making the cleaning process easier. With this technology the internal space of the oven can be easily cleaned and smells of the cooked food are minimized.

Choosing the right cooking programme.

Our modern ovens offer a range of specialist programs designed to ensure ideal conditions and perfect end results, whatever you're cooking.

Hot air flow + upper grill

This function is used when a crunchy crust is desired while cooking big portions of meat, bacon, whole goose or duck.

3 dimensional hot air convection system (3D heat)

Assures balanced distribution of temperature and creates the most optimum conditions for cakes' cooking and fruit drying on a few levels at the same time.

Upper/bottom heat

If you wish to have your dish with a nice crust or bake fresh bread and delicious cakes this mode is just perfect.

Half width variable grill

Used for cooking of smaller food quantities and also for toast roasting. This mode also provides a more economic usage of the oven.

Full width variable grill

Used for cooking of big pieces of beefsteak or fish.

Bottom heat

You can select this type of heating process if you wish only the bottom part of your dish to get brown.

Save energy. Same results cooked with less energy.

Bosch ovens are produced in accordance with the European energy efficiency standards. As a result of testing Bosch ovens were awarded with 'A' energy label thanks to their high performance at minimum energy consumption level. 'A' Class means 25% less energy consumption. And now, some of our ovens have A-30% Energy Efficiency Class which means that they use 30% less energy than A class appliances.

Gas freestanding cookers, 90 cm & 60 cm

**HSB738257M**

Serie | 8

Range Cooker 90 cm

- Gas hob
- 1 rapid, 2 standard, 1 economy, 1 wok burner
- Ignition via control knob
- Flame failure safety device
- Cast iron pan supports
- Glass cover lid
- Extra large capacity oven (112 l) with grey enamel
- Multifunction oven
- 8 cooking functions: Hot air, Top/bottom heat, Conventional heat, ECO, Circulating air, Rotisserie, Full width grill, Hot air grilling, Hot air & bottom heat
- Rotary spit
- Catalytic oven cavity (rear and side walls)
- Shelf support rails
- Oven interior light
- Electronic clock
- Storage compartment
- Adjustable feet
- Preset of liquid gas (28-30/37mbar)
- Natural gas nozzles (20 mbar) included
