Small Produce Bin

HEATRKIT20 - 13W @ 120V

Freedom[®] Heater Kit Low voltage heating element designed to guard against condensation build up. For use with non-traditional side-by-side installations (i.e. two wine columns) or instances where appliances are installed less than 6-inches (152 mm) apart from one another but not connected side-by-side. This kit is recommended for areas that are subject to high humidity or located next to an outside wall.

These warranties give you specific legal rights and you may have other rights that vary from state to state. Limited warranty from date of delivery. For complete warranty details, refer to your Use & Care manual, or ask your dealer.

Specifications are for planning purposes only. Refer to installation instructions and consult your countertop supplier prior to making counter opening. Consult with a heating and ventilation engineer for your specific ventilation requirements. For the most detailed information, refer to installation instructions accompanying product or write to Thermador indicating the model number. Specifications are correct at time of printing. Thermador reserves the right to change product specifications or design without notice. Some models are certified for use in Canada Thermador is not responsible for products that are transported from the U.S. for use in Canada
