

JUNKER Aqua Stop Warranty Conditions

Aqua Stop Warranty – only for dishwashers with Aqua Stop

In addition to warranty claims against the seller from the purchase agreement and in addition to our appliance warranty, we offer compensation under the following conditions:

1. If damage is caused by water due to a malfunction of our Aqua Stop system, we will make good the damage suffered by private customers.
2. This liability warranty is valid for the service life of the appliance.
3. A claim under the warranty can be made only where the appliance has been installed and connected correctly with Aqua Stop according to our instructions; this also includes correctly installing the Aqua Stop extension (original accessory). Our warranty does not cover defective supply lines or fittings up to the Aqua Stop connection on the tap.
4. In principle, it is not necessary to monitor an appliance with Aqua Stop during operation or to secure it afterwards by turning off the tap.

You only need to turn off the tap in the event of a lengthy absence from home, e.g. a vacation of several weeks.
