JUNKER ONYX-COLLECTION: PLEASURABLE COOKING

BAKING & COOKING

NEW: OVEN ONYX-COLLECTION

Junker ovens in elegant black glass design and their black handle provide joyful cooking even before preparation. Various programmes and functions will bring fun and creativity into the kitchen.

STEAM ASSIST

Crisp and crunchy on the outside, juicy inside: the steam assistance feature ensures that the dishes will come out simply perfect. Just fill up the water tank integrated in the panel and combine the heating type suggested in the recipe with steam assist.

- › Perfect for reheating cooked meals or crisping up bread and pastries

VENTING COOKTOP

The cooktop with integrated ventilation is placed without frame on the worktop. The ventilation provides an intensive level and can easily be activated by a finger tip on the symbol.

- › Available in 60 or 80cm width
- › Grease filter is dishwasher-safe

FOR GLOWING TABLEWARE

Junker fully integrated dishwashers now match with the Onyx-Collection and impress with a glossy black insert in the door panel.

1H PROGRAMME

For everyday needs. If it has to be faster, the 1h programme is just the right choice. Within one hour clean dishes are set back on the table

- › Brilliantly clean at 65°C in just one hour

INFO LIGHT

The red spot on the floor shows at first sight whether the dishwasher is in operation mode or not.

- › Prevents accidentally opening of the dishwasher while in use

JOYFUL FRESHNESS

Junker built-in fridges convince with new electronics, timeless design, an improved energy efficiency class and more storage flexibility – all „Made in Germany“.

ECO-AIR-FLOW

Intelligent and sustainable refrigerating due to Eco-Air-Flow system with its controlled and consistent air circulation. **Eco-Air-Flow system is integrated in the backwall of the fridge.**

- › Intelligent cooling process
- › Consistent air circulation

OPTIMIZED INTERIOR

The optimized interior offers a more convenient and flexible way of loading groceries in the entire fridge as well as in the door storing capacities.

- › More space inside the fridge
- › Convenient and flexible storage options

BASICS@HOME: JUNKER BUILT-IN APPLIANCES

BAKING & COOKING

BLACK OVEN DESIGN

The new Onyx-Collection ovens convince with more than its black design. A fully glass door enables a clear sight into the oven. Simple cleaning process due to soft closing door.

- Exclusive design
- Easy and convenient cleaning
- Childproof safety lock

GLASDESIGN-PANEL WITH TOUCH CONTROL

The elegant appearance of the new design hood is a further design element of the Onyx-Collection. The Touch Control Display with LED light enables a quick and comfortable use.

- Convenient handling
- Integrated LED light

XXL STORAGE CAPACITY

The integrated extractor hood offers a lot of space which is useful for storing kitchen utensils. Maximum load of the cupboard is up to 10kg on the left and right side of the chimney.

- Extra large storage for kitchen utensils

GLOWING DISHES – RIGHT FROM THE BEGINNING

Also the integrated Junker dishwashers belong to the Onyx-Collection and match their black inserts in the control panel with the design line.

1H PROGRAMME

For everyday needs. If it has to be faster, the 1h programme is just the right choice. Within one hour the clean dishes are set back on the table

- › Brilliantly clean in just one hour with a used temperature of 65°C

DOSAGE ASSIST

Thanks to Dosage Assist the dishwasher tap falls directly into a little collection tray. A targeted jet of water quickly dissolves the tab in a controlled manner. The detergent is distributed evenly throughout the machine, always guaranteeing optimum cleaning results.

- › Can be used with cleansing agent based on gel or powder

COOL PROSPECTS GUARANTEED

Junker built-in fridges with new electronics, a new design, an improved energy efficiency class, more flexibility and more space – all „Made in Germany“.

ECO-AIR-FLOW

With the EcoAirFlow system is an intelligent and sustainable cooling in the overall refrigeration room achieved. This is possible due to a controlled, equal temperature circulation.

- › Intelligent cooling process
- › Equal temperature circulation
