

SIEMENS

Experience seamless
living at the touch
of a button

CONNECTED BY

Home Connect

Siemens Home Appliances

A woman with long dark hair, wearing a light-colored short-sleeved shirt, white trousers, and a brown belt, is standing in a modern kitchen. She is holding a white cloth and looking at a Siemens oven that is open, showing a roasted bird inside. The kitchen features dark wood cabinetry and a Siemens built-in coffee machine. The floor is made of light-colored wood. The overall atmosphere is warm and sophisticated.

Turn your home into

a haven of connectivity

A life next level is within your grasp - being connected, using the latest technologies, and spending time doing what you want to do rather than what you have to do. A full range of connected Siemens Home Appliances is already paving the way today towards a seamless life by offering consumers services – both inside and outside the home. With the Home Connect App, you can already control your Wi-Fi enabled Siemens home appliances on your smartphone. And now, this technology has evolved into something bigger: an ever-growing network of partner services that turns your house into a connected home. Discover a life full of exciting possibilities.

Get introduced
to a new level

of intelligent
living

Metropolitan living is fast-paced, and always comes with a long to-do list. Luckily, technology can take care of some tasks for you: like getting a cappuccino or a pack of dishwasher tabs – exactly when you need them the most. Discover how connectivity streamlines your daily flow.

Home Connect makes it easy to manage and control your Siemens Home Appliances: be it the washing machine, the oven, the coffee machine or even the vacuum cleaner. The Home Connect app offers access to relevant information at any time. Devices can not only be turned on and off, one can also choose between different programmes, set a timer, set appliance to sleep mode and much more. Householding was never easier, safer, more efficient and steerable independently of the location.

Elevate your hosting

Voice Control (Coming soon to the UAE). No more running around in the kitchen. With Home Connect and the right partner, you'll never miss a single thing in your party again. All you have to do is simply connect your smart speaker to Siemens appliances via Home Connect, and you can start asking your oven "when will my dinner be ready?" or telling your coffee machine to "prepare a Cappuccino".

Transfer Recipes. Serving the most exquisite dishes has never been easier. With Home Connect and the right partner, you can get inspired by countless recipes on your smartphone and start the cooking process seamlessly. Simply choose from a wide range of inspiring recipes, transfer them directly to your oven, and the appliance will adapt its settings accordingly.

with
connectivity

Experience the future of home living

with connected home appliances

When intelligence meets connectivity: the wifi-enabled Siemens appliances that blend into your seamless life. Start managing your appliances whenever you want, from wherever you are – with Home Connect. Discover all new possibilities at siemens-home.bsh-group.com

Remote Control

Let your appliances adjust to your timetable. With the Home Connect App you can easily select programs and start your Wi-Fi enabled Siemens appliances whenever you want, from wherever you are.

Remote Monitoring

Peace of mind is just a click away with Wi-Fi enabled Siemens appliances and Home Connect. Monitor your appliance's settings and receive push notifications when the programmes is finished – from wherever you are.

Remote Diagnostics*

Analysis and service can be this simple. Call the Home Connect hotline and arrange an appointment for remote diagnostics. With your permission, Customer Service will obtain online access to your wifi-enabled Siemens appliances, and may then be able to identify the cause of any problems and give you clear advice on what needs to be done.

*For selected Wi-Fi enabled appliances only.

Let nothing come
between you and
the things you love

Friends over for dinner and don't want to leave the table to check if dessert is ready? Or out shopping and not sure which veggies are missing from your fridge? This might seem like a challenge, but with Siemens and the Home Connect app, you can simply connect to your home appliances via your smartphone from wherever you are, have a look at what's in your fridge through the 2 built-in cameras, or check if your oven notified you if dessert is ready. Simple solutions designed to keep your world going.*

*Coming to UAE soon

Take your cooking

to ever new horizons

How do you impress the guests? With good food, good mood, and a dash of grace. Be the best host ever by taking your cooking experience to the next level, with Wi-Fi enabled Siemens cooking appliances and Home Connect.

emotionLight Pro (Coming soon to the UAE)
The Home Connect App enables you to flexibly adapt the emotionLight Pro of your hood. In addition to the predefined light colours that you can select directly on the appliance, the Home Connect App exclusively offers you a full colour range. It enables you to create a unique room atmosphere that perfectly suits your style of living.

Filter Saturation
The Home Connect App enables you to comfortably take a look at the status of the grease filter and the carbon filter in your hood. It automatically reminds you when you need to clean, exchange or regenerate them, in order to ensure maximum performance of your hood at all times.

cookConnect System
Thanks to the convenient cookConnect System, many functions of the ventilation can be controlled directly from the Cooktop. For instance, select the power level or adjust the lighting. Experience the new cooking experience with Wi-Fi enabled Siemens ventilation and cooktops.

recipeWorld
Cooking at a professional level has never been easier. Discover a great selection of recipes in your Home Connect App. Once you have picked your favourite one, you can transfer the ideal settings directly to your oven and even remotely start the heating process. Time to enjoy convenient cooking and delicious meals.

Get ready for all kinds of adventures in life: whether it's hosting unannounced visitors, arriving home from a long trip, or simply looking for food inspiration. Manage your storage in the most efficient way, with Wi-Fi enabled Siemens fridge freezers and Home Connect.

Camera in the fridge (Coming soon to the UAE)
Thanks to two cameras that are installed in the fridge, you can take a look inside wherever you are – through the intuitive Home Connect App. So whenever culinary inspiration hits you, it only takes a few seconds to check which ingredients you still have at home.

Smart storage management
With easy food tracking storage, simply enter the storage date of your produce on Home Connect to track its shelf life and maximize the capacity of your refrigerator.

Intelligent
cooling

Maximum
freshness

The smart way to excellent hygiene and comfort

For those striving for the best performance in life – like yourself – a decent appearance always makes a good impression. Experience the smart way of treating your clothes, with Wi-Fi enabled Siemens washing machines and dryers.

easyStart

The easyStart feature in your Home Connect App helps you find the optimal program. Just answer a few simple questions, regarding the fabric and colour for instance, then remotely send the recommended program settings to your washing machine or dryer.

waterPerfect

Wash with precise water usage. Siemens washing machine's waterPerfect feature on Home Connect detects load size and fabric type and auto-adjusts the water needed to yield perfect cleaning results.

There are always more important things to do in life than washing dishes and replenishing dishwashing tabs. Now with Wi-Fi enabled Siemens dishwasher and Home Connect, you can leave all those tasks to connectivity.

emotionLight Pro (Coming soon to the UAE)

The Home Connect App enables you to flexibly adapt the emotionLight Pro of your dishwasher. In addition to the predefined light colours that you can select directly on the appliance, the Home Connect App exclusively offers you a full colour range. It enables you to create a unique room atmosphere that perfectly suits your style of living.

easyStart

easyStart makes operating the dishwasher easier than ever before. All you have to do is answer a few simple questions about cleaning preferences and the type of dishes by using the Home Connect App. Thereafter, the ideal program will be recommended and you can start it remotely via the app.

Tab Counter

The Tab Counter provides more convenience and peace of mind: Just make a note in your Home Connect App whenever you buy new dishwasher tabs, and you can always monitor the amount of tabs you still have via Smartphone from wherever you are. If your supply is running low, the Home Connect App even sends you a push notification, reminding you to get new dishwasher tabs.

Outstanding
brilliance

Elevated dining
experience

Explore a world of coffee

We all need a cup of coffee from time to time: an espresso on a weekday morning, or a cappuccino on a Sunday afternoon. What if your coffee preference could fit perfectly into your personal lifestyle? With Wi-Fi enabled Siemens coffee machines and Home Connect, it's no longer an "if".

coffeeWorld

coffeeWorld offers you a great variety of international coffee specialities that are exclusive to the Home Connect App. Find your favourite and send your choice remotely to your appliance. This way you can discover the wide world of coffee with just one touch.

Coffee Recipes

Many dishes, drinks or desserts – like espresso crème brûlée – require coffee as an ingredient. With Home Connect, your appliance is perfectly ready for that. Simply choose from a number of pre-installed recipes and remotely start the preparation of the coffee variation.

coffeePlaylist

Surprise and spoil your guests. With the Home Connect App, you can easily take multiple orders of different coffee variations and remotely transfer the playlist to your appliance. The coffee machine then prepares the coffee specialties from the playlist, one after the other.
