# WELCOME HOME – WELCOME TO JUNKER.

At Junker, young design meets superior technology. The elegant, black glass design makes the oven, extractor hood & co. an eye-catcher in every kitchen. Thoughtfully and contemporarily designed, the high-quality built-in appliances ensure pure cooking pleasure. Simply quality from the very beginning.

## A KITCHEN CAN BE THIS COMFORTABLE.

Our current Junker series in black glass design is equipped with a variety of programs and functions - for many exciting cooking experiences. With Junker ovens, cooking and baking become a pleasure even before preparation. Junker, a kitchen can be this comfortable.

### STEAM ADDITION: CRISPY ON THE OUTSIDE, JUICY ON THE INSIDE

In Junker ovens with steam assistance, homemade bread turns out particularly well. This is because steam prevents it from drying out, ensures a wonderfully crispy crust, and keeps food fluffy on the inside. The best part comes last - the oven cleans itself as if by magic thanks to pyrolytic self-cleaning.

- Also ideal for baking bread
- Comfortable thanks to pyrolytic self-cleaning

### ANGLED WALL HOOD WITH TOUCH CONTROL

With its black angled design, the Junker wall hood provides more headroom in the kitchen and relaxed cooking free from steam and odors. Available in 60 and 80 cm widths.

- Relaxed cooking with extra headroom

### LED LIGHTING

The innovative LED lights of the Junker built-in appliances ensure perfect illumination in the cooking area. Another bright spot: the long-lasting lights consume extremely little energy.

- Particularly energy-saving
- Brightly lit work surface

# AT JUNKER, THE KITCHEN SHINES – AND THE DISHES.

Economical in water and energy consumption, equipped with practical programs and particularly flexible - dishwashers from Junker convince all along the line.

## QUIETLY TO CLEAN DISHES

With a noise level of only 42 dB, Junker dishwashers clean particularly quietly. Thanks to special sound insulation, the noise level of the appliance is reduced to a minimum - ideal for sleeping undisturbed even when the dishwasher is running.

- Whisper-quiet washing
- Efficient and economical in water consumption

## 1H PROGRAM

When things need to go faster, the 1h program is the perfect choice. Your dishes will be sparkling clean again in just one hour.

- Brilliantly clean in one hour at
- 65 °C washing temperature

## THE AQUA STOP® SYSTEM: ABSOLUTE SAFETY

The Junker dishwashers with the Aqua Stop safety system offer reliable protection against water damage - for the entire life of the appliance.

- Prevents any type of water damage

JUNKER QUALITY FROM THE OUTSET.

# THE COOLEST PROSPECTS FOR OUR FOOD.

Junker built-in refrigerators impress with their fresh design, improved energy efficiency, innovative electronics, a plus in flexibility, and more volume - and all of this "Made in Germany".

## LED LIGHTING

The innovative LED lighting ensures perfect illumination of the interior and is also very durable and efficient, because LED bulbs consume extremely little energy.

- Perfect illumination of the refrigerator compartment
- Particularly energy-saving

## QUICK FREEZING OF NEW FOOD

To prevent already frozen items from thawing when storing new food, the practical Super-Freezing function helps. The appliance automatically cools down to  $-30^{\circ}\text{C}$ , so that newly stored warm food does not interrupt the freezing process.

- Faster freezing of even larger quantities by automatic cool-down

## NO FROST: NO MORE DEFROSTING

The No-Frost technology in the freezer compartment reliably prevents the formation of frost or ice on the inner walls, food, and its packaging. Thus, tedious and time-consuming manual defrosting is a thing of the past.

- No ice formation
- Never defrost again
