Your washing machine

Congratulations – you have chosen a modern, high-quality domestic appliance manufactured by Siemens. This washing machine is distinguished by its economical water and energy consumption.

Each machine that leaves our factory has been inspected thoroughly to ensure that it functions properly and is in perfect condition.

For more information on our products, accessories, replacement parts and services, see our website **www.siemens-home.com** or contact our after-sales service centres.

Contents

Protection of the environment/Conservation tips

- Always fill the washing machine with a maximum amount of laundry for the relevant programme.
- Wash normally soiled laundry without a prewash.
- Instead of 曲 **Cottons 90 °C**, select the 曲 **Cottons 60 °C** programme and the additional ⌂ **eco Perfect** function. Comparable cleaning result with significantly lower energy consumption.
- Measure the detergent according to the manufacturer's instructions and water hardness.
- If you want to dry the laundry in the tumble dryer afterwards, select a spin speed suggested by the dryer manufacturer.

Intended use

- For domestic use only
- For washing machine-washable fabrics and hand-washable wool in detergent solution
- To be operated with cold drinking water and commercially available detergents and care products which are suitable for use in washing machines.
  - *Do not leave children unattended near the washing machine.*
  - *The washing machine is not to be used by children or persons not familiar with the operating instructions.*
  - *Keep pets away from the washing machine.*

Programmes

Detailed overview of programmes → *page 7.*
Temperature and spin speed can be selected individually, depending on the selected programme and programme progress.

Programme	
曲 **Cottons**	Hard-wearing fabrics
⌂ **Prewash**	Hard-wearing fabrics, prewash at 30°C
〜 **Easy-Care**	Easy-care fabrics
⌂ **Prewash**	Easy-care fabrics, pre-wash at 30 °C
〇 **Mix**	Different types of laundry
⬗ **Delicates/Silk**	Delicate washable fabrics
⬡ **Wool**	Hand/machine-washable wool
Rinse	Power rinse + with spin
Spin	Extra spin with selectable spin speed
Empty	Empty the rinsing water when ⊘ is activated (Rinse hold = no final spin)
Gentle spin	Extra spin with reduced spin speed
Super Quick 15'	Super Quick programme
Outdoor Wear	All-weather, sportswear and outdoor wear → page 9
Shirts/Business	Non-iron shirts
Easy-Care Special	Dark-coloured fabrics

Preparation

Install correctly, according to the separate installation instructions.

Check the machine
- Never use a damaged machine.
- Inform the after-sales service.

Connect the mains plug
- Make sure your hands are dry.
- Take hold of the plug only.

Turn the tap on

Sorting and loading the laundry
Follow the manufacturer's care information. According to the information on the care labels. According to type, colour, soiling and temperature. Do not exceed the maximum load → *page 7.*

Insert items of laundry of varying sizes. Close the washing machine door. Take care not to trap items of laundry between the washing machine door and the rubber seal.

Adding detergent and care products

Measure accordingly:
The amount of laundry, level of soiling, water hardness (ask your water supply company) and manufacturer's instructions.
On models without an insert for liquid detergent:
Pour liquid detergent into the appropriate dispenser and place in the drum.
During operation: open the detergent drawer with care.

Insert for liquid detergent (depending on model), *page 10.*
Compartment II: detergent for main wash, water softener, bleach, stain remover
Compartment ⬦: fabric softener, starch
Compartment I: detergent for prewash

Dilute thick fabric softener and conditioner with water. This prevents blockages.

Set* and adjust the programme

Programme selector	Display panel / Options buttons	Additional functions	Start/Add laundry

If the ⊘ symbol is lit in the display panel, Childlock active → Deactivate it, page 5.

Additional functions and options buttons → Individual settings, page 5

Press ⏻ (Start/Add laundry)

Programme selector for switching the machine on and off and for selecting the programme. Can be turned in either direction.

All buttons are sensitive and need only to be touched lightly. If you press and hold the ⏻ (Finished in) option button, the appliance automatically runs through the settings options.

曲 – 90 °C	°C (Temp.)	Select the temperature (⌂ = cold)
⊘ – 1600*	⊘ (rpm)	Select the spin speed (* depending on the model) or ⊘ (Rinse hold = no final spin, laundry remains in the water after the final rinse, – – – appears in the display panel).
1 – 24 h	⏻ (Finished in)	Programme end after
	Status indicators	Programme status indicators: Wash, rinse, spin, programme duration or end (– 0 –) Childlock → page 5 Open the washing machine door, add laundry → page 4, 5

Washing

Detergent drawer with compartments I, II, ⬦
Washing machine door
Control panel
Washing machine door handle
Service flap

Washing

Switch off
Turn the programme selector to **Off.**

Turn off the tap
Not required for AquaStop models → *Refer to installation instructions.*

Remove the washing
Open the washing machine door and remove the washing.
If ⊘ (Rinse hold = no final spin) active: turn the programme selector to 〜 **Empty** or ⊘ **Spin**. Select the spin speed if necessary.
Press ⏻ (Start/Add laundry).
- Remove any foreign objects - risk of rusting.
- Leave the washing machine door and detergent drawer open so that any residual water can dry away.

End of programme when ...
... the ⏻ (Start/Add laundry) button is off and – 0 – appears in the display panel.

If the display panel lighting is off, press any button → Energy-saving mode, page 5

Cancel the programme
Programmes at high temperatures:
- To cool the laundry: select 〜 **Rinse.**
- Press ⏻ (Start/Add laundry).
Programmes at low temperatures:
- Select ⊘ **Spin** or 〜 **Empty.**
- Press ⏻ (Start/Add laundry).

Change the programme if...
... you have selected the wrong programme by mistake:
- Reselect the programme.
- Press ⏻ (Start/Add laundry). The new programme starts from the beginning.

Top up laundry, if ... → *page 5*
... ⏻ (Start/Add laundry) is pressed and then **both** of the 🔓 + 🔒 symbols are lit in the display panel. If 🔒 is lit, the washing machine door cannot be opened.
Press the ⏻ (Start/Add laundry) button.

Individual settings

Options buttons
The spin speed and temperature can be changed before and during the selected programme. The effects depend on the programme progress.

°C (Temperature)
You can change the displayed washing temperature. The maximum washing temperature that can be selected depends on the programme that has been set.

⊘ (spin speed rpm) / ⊘ (Rinse hold = no final spin)
You can change the spin speed shown or select ⊘ (Rinse hold = no final spin, laundry remains in the water after the last rinse, – – – appears in the display panel). You can change the spin speed shown. The maximum selectable spin speed depends on the model and on which programme is currently selected.

⏻ (Finished in)
When you select the programme, the relevant programme duration is displayed. You can delay the start of the programme before it begins. The "Finished in" time can be set in increments of one hour up to a maximum of 24 hours. Press the ⏻ (Finished in) button repeatedly until the desired number of hours is displayed (h = hour).
Press ⏻ (Start/Add laundry).

Additional functions → and overview of programmes, *page 7*

⌂ **speed Perfect**	For washing in a shorter time with a washing result comparable to that of the standard programme. Maximum load → Overview of programmes, page 7
⌂ **eco Perfect**	For saving energy with a washing performance comparable to that of the standard programme.
⌂ **(Easy-Iron)**	Special spin sequence with subsequent fluffing. Gentle final spin at reduced speed. Residual moisture in the laundry is increased slightly.
⌂ **power**	Additional rinse cycle. For areas with very soft water or for further improving the washing result.

Childlock

⊘ Childlock/ appliance lock	You can lock the washing machine to prevent the functions you have set from being changed inadvertently. **ON/OFF:** after the start/end of the programme, press and hold ⊘ (Start/Add laundry) for approx. 5 seconds. Note: The childlock can remain activated until you wish to start the next programme, even after switching off the machine. Then you can deactivate the childlock before starting the programme and activate it again as necessary once the programme has started. Note: – The ⏀ symbol is lit: Childlock active. – The ⏀ symbol flashes: Childlock active and then the programme selector is altered. To prevent the programme from stopping, move the programme selector back to the original programme, the ⏀ symbol is lit again.

Add laundry

🔓 + 🔒 Add laundry	If you want to add additional items of laundry after the programme has started, press the ⏻ (Start/Add laundry) button. The machine checks whether adding laundry is possible. 🔓 + 🔒 are lit: Adding laundry is possible. 🔒 flashing: Wait until 🔓 + 🔒 are lit. Note: Only open the washing machine door when **both** the 🔓 + 🔒 symbols are lit. 🔒: It is not possible to add laundry. Note: for safety reasons, the washing machine door remains locked when the water level and/ or temperature is high, or during spinning. To continue the programme, press the ⏻ (Start/Add laundry) button.

Energy saving mode
If the washing machine is switched on and is not operated for several minutes before the programme starts or at the end of the programme, the display panel light goes out and the ⏻ (Start/Add laundry) button flashes. Press any button to turn the light back on.

Individual settings

Signal

1. Activating the mode for setting the signal volume

2. Set the volume for ...
* you may need to select the function several times.

Button signals / Information signals

⏻ (Start/Add laundry)
To start the programme or to subsequently load additional laundry, and to activate/deactivate the childlock.

Overview of programmes → Check the consumption values table on page 8 and the instructions on page 9

(Large fold-out programmes table, right edge)

Siemens Electrogeräte GmbH
Carl-Wery-Str. 34
81739 München / Deutschland
WM14S461NW
9001129369

– Read the Instruction Manual and Installation Instructions and all other information enclosed with the washing machine and act accordingly.
– Retain the documents for subsequent use.

Risk of electric shock	– Never pull on the cable to disconnect the mains plug. – Only insert/pull out the mains plug with dry hands.
Danger to life	For worn-out appliances: – Disconnect the mains plug. – Sever the mains cable and discard along with the plug. – Destroy the lock on the washing machine door. This will prevent children from locking themselves in and risking their lives.
Danger of suffocation	– Keep packaging, film and packaging parts out of the reach of children.
Risk of poisoning	– Keep detergents and care products out of the reach of children.
Risk of explosion	– Items of laundry pretreated with cleaning agents containing solvents, e.g. stain remover/cleaning solvent may cause an explosion after being loaded into the washing machine. Rinse items of laundry thoroughly by hand beforehand.
Risk of injury	– The washing machine door can become very hot. – Be careful when emptying hot detergent solution. – Do not climb onto the washing machine. – Do not lean on the open washing machine door. – Do not reach into the drum if it is still rotating.

Consumption values

Programme	Additional function	Load	Electricity***	Water***	Programme duration***
Cottons 30 °C**		8 kg	0.35 kWh	76 l	2:20 h
Cottons 40 °C**		8 kg	0.97 kWh	76 l	2:30 h
Cottons 60 °C**		8 kg	1.36 kWh	76 l	2:40 h
Cottons 60 °C	eco Perfect*	8 kg	1.03 kWh	56 l	3:25 h
Cottons 60 °C		8 kg	2.34 kWh	87 l	2:30 h
Mix 40 °C**		3.5 kg	0.47 kWh	49 l	1:01 h
Easy-Care 40 °C**		3.5 kg	0.55 kWh	55 l	1:43 h

Delicates/Silk 30 °C		2 kg	0.14 kWh	35 l	0:41 h
Wool ✿ ● (cold)		2 kg	0.02 kWh	40 l	0:40 h
Wool ✿ 30 °C		2 kg	0.16 kWh	40 l	0:40 h

*   Programme setting for testing and energy labelling in accordance with EU directive 92/75/EEC.
** Programme setting for testing in accordance with applicable standard EN60456.
    Note on comparative tests: When using the test programmes, wash the specified load using the maximum spin speed.
    As a **short programme** for coloureds, select the **Mix 40 °C** programme with maximum spin speed.
*** The values may deviate from the specified values depending on water pressure, water hardness, and inlet temperature, ambient temperature, type, amount and level of laundry soiling, detergent used, fluctuations in the power supply and selection of additional functions.

Before washing for the first time

Do not put any laundry in the machine. Turn the tap on. Pour the following into compartment **II**.
– approx. **1 litre** water
– detergent (amount to be used according to the manufacturer's instructions for light soiling and according to water hardness)
Turn the programme selector to **Easy-Care 60 °C** and press ☼ (**Start**/Add laundry). At the end of the programme, turn the programme selector to **Off**.

Protecting the laundry and the machine

– When measuring detergent, care products and cleaning agents, follow the manufacturer's instructions.
– Empty buckets.
– Look out for metal items (paperclips, etc.).
– Wash delicates in a laundry bag (tights, curtains, underwired bras).
– Fasten zips, do up any buttons.
– Brush sand out of pockets and collars.
– Remove curtain fittings or place in the laundry bag.

Loading laundry

Insert items of laundry of varying sizes.
Take care not to trap items of laundry between the washing machine door and the rubber seal.

Laundry with varying degrees of soiling

light	Wash new items of clothing separately.
	Do not pre-wash. If required, select the additional ⏩ **speed** Perfect function.
	Pretreat any stains as necessary.
heavy	Do not load as much laundry. Select the programme with Prewash.

Soaking

Pour soaking agent/detergent into compartment **II** in accordance with the manufacturer's instructions. Turn the programme selector to **Cottons 30 °C** and press ☼ (**Start**/Add laundry). After approx. 10 minutes, press ☼ (**Start**/**Add laundry**) to stop the programme. After the required soaking time, press ☼ (**Start**/Add laundry) again to continue the programme, or change the programme.

Starching

Starching is possible in all wash programmes if liquid starch is used. Pour starch into the ✿ fabric softener compartment in accordance with the manufacturer's instructions (rinse first if necessary).

Dyeing/bleaching

Dye should only be used in normal household quantities. Salt may damage stainless steel. Always follow the dye manufacturer's instructions. Do **not** use the washing machine for bleaching clothes.

Outdoor

Special detergent suitable for machine washing is available particularly in sports shops. For dosage information, see the manufacturer's instructions. Turn the programme selector to ❖ **Outdoor Wear** Select the temperature and ☼ (**Start**/Add laundry).

Position the insert for dispensing liquid detergent:
– Remove the detergent drawer completely → *page 10*.
– Slide the insert forwards.
Do not use the insert (slide upwards):
– For gel-type detergents and washing powder,
– For programmes with ⏩ **+Prewash** or ⏱ (Finished in) option

Care

⚠ – **Risk of electric shock.** *Disconnect the mains plug.*
– **Risk of explosion.** *No solvents.*

Machine housing, control panel
– Remove detergent residue immediately.
– Wipe with a soft, damp cloth.
– Do not clean with a jet of water.

Cleaning the detergent drawer ...
... if it contains detergent or fabric softener residues.
1. Pull out, press insert down, remove drawer completely.
2. To remove the insert: press the insert upwards from below with your finger.
3. Clean the detergent dispenser tray and insert with water and a brush and dry it.
4. Fit the insert and engage (connect the cylinder to the guide pin).
5. Push in the detergent drawer.

Leave the detergent drawer open so that any residual water can evaporate.

Drum
Leave the washing machine door open so that the drum can dry out.
Use chlorine-free cleaning agent, not steel wool.

Descaling ⚠ *Ensure there is no laundry in the machine*
This should not be necessary if the correct detergent dosage has been used. If it is necessary, however, proceed according to the descaling agent manufacturer's instructions. Suitable descalers can be obtained via our website or from our after-sales service → *page 13*.
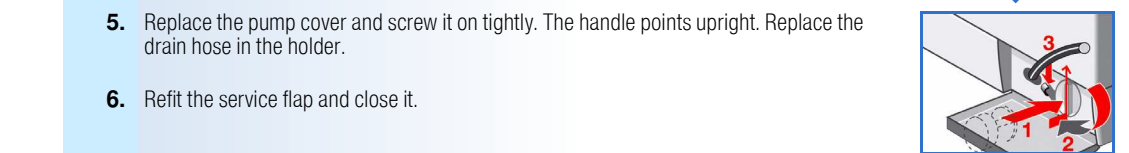

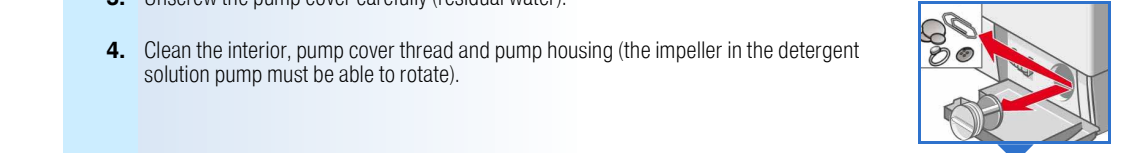

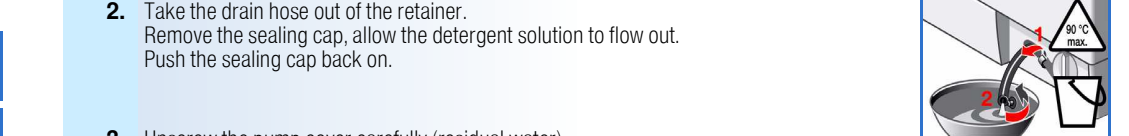

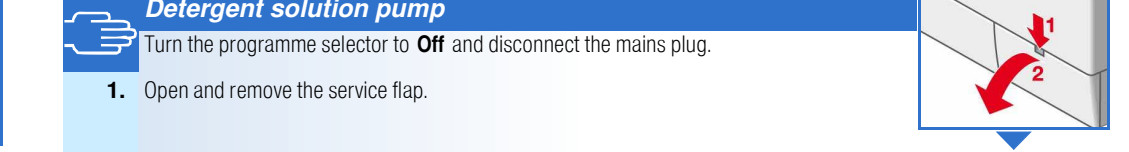

Instructions in the display panel *depending on model*

❄ flashing	Close the washing machine door properly; laundry may be caught.
E:11:29	Open the tap completely, supply hose kinked or trapped; Clean the filter → *page 11*, water pressure too low.
E:18	Detergent solution pump blocked; Clean the detergent solution pump → *page 11*. Drain hose/waste pipe blocked; Clean the drain hose at the system → *page 11*.
E:23	Water in the base tub, appliance leaking. Call the after-sales service.
Other displays	Switch off the appliance, wait for 5 seconds and switch it back on. If the display appears again, call the after-sales service → *page 13*.

⚠ **Risk of scalding!** *Allow the detergent solution to cool down. Turn off the tap.*

Detergent solution pump
Turn the programme selector to **Off** and disconnect the mains plug.

1. Open and remove the service flap.

2. Take the drain hose out of the retainer.
    Remove the sealing cap, allow the detergent solution to flow out.
    Push the sealing cap back on.

3. Unscrew the pump cover carefully (residual water).

4. Clean the interior, pump cover thread and pump housing (the impeller in the detergent solution pump must be able to rotate).

5. Replace the pump cover and screw it on tightly. The handle points upright. Replace the drain hose in the holder.

6. Refit the service flap and close it.

To prevent unused detergent from flowing straight into the drain during the next wash: Pour 1 litre of water into compartment **II** and start the ✿ **Empty** programme.

Drain hose on the siphon
Turn the programme selector to **Off** and disconnect the mains plug.

1. Loosen the hose clamp, remove the drain hose carefully (residual water).
2. Clean the drain hose and siphon connecting piece.
3. Reattach the drain hose and secure the connection with the hose clamp.

Filter in the water supply
⚠ **Risk of electric shock**
Do not immerse the AquaStop safety device in water (contains electric valve).

Reduce the water pressure in the supply hose:
1. Turn off the tap.
2. Select any programme (except ✿ Spin/✿ Empty).
3. Press ☼ (**Start**/Add laundry). Let the programme run for approximately 40 seconds.
4. Turn the programme selector to **Off**. Disconnect the mains plug.

5. Clean the filter:
    Disconnect the hose from the tap.
    Clean the filter with a small brush.

    and/or on standard and Aquasecure models:
    Remove the hose from the back of the appliance,
    Remove the filter using pliers and clean the filter.

6. Connect the hose and check for leaks.

Water is leaking out.	– Attach/replace the drain hose correctly. – Tighten the screw connection of the supply hose.
No water supply. Detergent not flushed into machine.	– ☼ (**Start**/Add laundry) not pressed? – Tap not turned on? – Filter blocked? Clean the filter → *page 11*. – Supply hose kinked or trapped?
Washing machine door cannot be opened.	– Safety function active. Programme stopped? → *page 4*. – ☀ (Rinse hold = no final spin) selected? → *page 3, 4*. – Can be opened by emergency release only? → *page 13*.
Programme does not start.	– ☼ (Start/Add laundry) pressed or ⏱ (Finished in) time selected? – Washing machine door closed? – Childlock active? Deactivate → *page 5*.
Detergent solution does not empty.	– ☀ (Rinse hold = no final spin) selected? → *page 3, 4*. – Clean the detergent solution pump → *page 11*. – Clean the waste pipe and/or drain hose.
Water not visible in the drum.	– Not a fault - water below the visible area.
Spin result not satisfactory. Laundry wet/too damp.	– Not a fault - the unbalanced-load detection system has interrupted the spin because the laundry is unevenly distributed. Distribute large and small items of laundry evenly in the drum. – (Easy-Iron) selected? → *page 5*. – Speed selected too low? → *page 5*.
The programme duration changes during the washing cycle.	– Not a fault - the programme sequence is optimised for the relevant washing process. This can cause changes in the programme duration in the display panel.
Repeated spin start-up.	– Not a fault - unbalanced-load detection system is adjusting the imbalance.
Residual water in the ⊗ compartment for care products.	– Not a fault - the action of the care product is not affected. – Clean the insert if necessary → *page 10*.
Odour formation in the washing machine.	– Run the ✿ **Cottons 90 °C** programme on the empty washing machine. Use standard detergent.
Status indicator ⊟ flashing. Detergent may escape from the detergent drawer.	– Too much detergent used? Mix 1 tablespoon of fabric softener with ½ litre water and pour the mixture into compartment **II**. *(Not for outdoor textiles or those made with down.)* – Reduce the detergent dosage for the next wash cycle.
Pronounced generation of noise, vibration and "wandering" during the spin cycle.	– Are the appliance feet fixed? – Secure appliance feet → *Installation instructions*. – Transportation safety devices removed? – Remove transportation safety devices → *Installation instructions*.
Noises during spinning and emptying.	– Clean the detergent solution pump → *page 11*.
Display panel/indicator lamps do not function during operation.	– Power cut? – Circuit breakers tripped? Switch the circuit breakers back on or replace. – Energy saving mode active? – If a fault occurs repeatedly, call the after-sales service.
Programme sequence longer than usual.	– Not a fault - unbalanced-load detection system is adjusting the imbalance by repeatedly redistributing the laundry. – Not a fault - foam detection system active - adds an additional rinse cycle.
There are detergent residues on the laundry.	– In isolated cases, phosphate-free detergents contain water-insoluble residues. – Select ✿ **Rinse** or brush down the laundry after washing.

| In Add laundry mode, ☼ (**Start**/**Add laundry**) flashes very quickly and a signal sounds | – Water level too high. Not possible to add more laundry. Close the washing machine door immediately if necessary.
– Press ☼ (**Start**/Add laundry) to continue the programme. |

If you cannot correct a fault yourself (switching on/off) or a repair is required:
– Turn the programme selector to **Off** and pull the mains plug out of the socket.
– Turn off the tap and call the after-sales service → *page 13*.

Emergency release *e.g. in the event of a power cut*

↯ The programme continues when the power supply is restored. However, if the laundry has to be removed, the washing machine door can be opened as follows:

⚠ **Risk of scalding**
The detergent solution and laundry may be hot. If possible, leave to cool down.
Do not reach into the drum if it is still rotating.
Do not open the washing machine door if water can be seen through the glass.

1. Turn the programme selector to **Off** and pull out the mains plug.
2. Empty the detergent solution → *page 11*.
3. Pull the emergency release downwards with a tool and release.
    Washing machine door can then be opened.

⚠ *Observe the safety instructions on page 6.*

After-sales service

If you cannot remedy the fault yourself (What to do if ... → *page 12, 13*), contact our after-sales service. We will always find a suitable solution to avoid unnecessary visits by repair personnel.

The contact details of your nearest after-sales service can be found here or in the after-sales service directory (model-dependent).
– **GB** 0844 8928999 (Calls from a BT landline will be charged at up to 3 pence per minute.
A call set-up fee of up to 6 pence may apply).

– **IE** 01450 2655

Please give the after-sales service the product number (E no.) and the production number (FD) of the appliance.

| **E-Nr.** | | **FD** | |

Washing

Before washing for the first time
Run a wash cycle without any laundry → page 9

Sorting and loading the laundry

Follow the manufacturer's care information.
According to the information on the care labels.
According to type, colour, soiling and temperature.
Do not exceed the maximum load → *page 7*.

Observe the important information → page 9.
Insert items of laundry of varying sizes.
Close the washing machine door. Take care not to trap items of laundry between the washing machine door and the rubber seal.

Adding detergent and care products

Measure accordingly:
The amount of laundry, level of soiling, water hardness (ask your water supply company) and manufacturer's instructions.
On models without an insert for liquid detergent:
Pour liquid detergent into the appropriate dispenser and place in the drum.
During operation: open the detergent drawer with care.

i *Dilute thick fabric softener and conditioner with water. This prevents blockages.*

– Leave the washing machine door and detergent drawer open so that any residual water can dry away.

End of programme when ...
... the ◇ (**Start/Add laundry**) button is off and - *0* - appears in the display panel.

i If the display panel lighting is off, press any button → Energy-saving mode, *page 5*.

Cancel the programme
Programmes at high temperatures:
– To cool the laundry: select ✑ **Rinse**.
– Press ◇ (**Start**/Add laundry).
Programmes at low temperatures:
– Select ⟳ **Spin** or ✑ **Empty**.
– Press ◇ (**Start**/Add laundry).

Change the programme if...
... you have selected the wrong programme by mistake:
– Reselect the programme.
– Press ◇ (**Start**/Add laundry). The new programme starts from the beginning.

Top up laundry, if ... → *page 5*
... ◇ (Start/**Add laundry**) is pressed and then **both** of the *YES + 0*
symbols are lit in the display panel. If *no* is lit, the washing machine door cannot be opened.
Press the ◇ (**Start**/Add laundry) button.

Individual settings

Options buttons

The spin speed and temperature can be changed before and during the selected programme. The effects depend on the programme progress.

°C (Temperature)

You can change the displayed washing temperature. The maximum washing temperature that can be selected depends on the programme that has been set.

⊙ (spin speed rpm) / ⊘ (Rinse hold = no final spin)

You can change the spin speed shown or select ⊘ (Rinse hold = no final spin, laundry remains in the water after the last rinse, - - - appears in the display panel). You can change the spin speed shown. The maximum selectable spin speed depends on the model and on which programme is currently selected.

⊕ (Finished in)

When you select the programme, the relevant programme duration is displayed. You can delay the start of the programme before it begins. The "Finished in" time can be set in increments of one hour up to a maximum of 24 hours. Press the ⊕ (Finished in) button repeatedly until the desired number of hours is displayed (h = hour).
Press ◇ (**Start**/Add laundry).

Additional functions → and overview of programmes, *page 7*

⊟⊕ **speed** Perfect	For washing in a shorter time with a washing result comparable to that of the standard programme. Maximum load → Overview of programmes, *page 7*.
⊗ **eco** Perfect	For saving energy with a washing performance comparable to that of the standard programme.
⊿ (Easy-Iron)	Special spin sequence with subsequent fluffing. Gentle final spin at reduced speed. Residual moisture in the laundry is increased slightly.
⊌ **power**	Additional rinse cycle. For areas with very soft water or for further improving the washing result.

Childlock

⬳⊚ **Childlock/ appliance lock**	You can lock the washing machine to prevent the functions you have set from being changed inadvertently. **ON/OFF:** after the start/end of the programme, press and hold ◇ (**Start**/Add laundry) for approx. 5 seconds. Note: The childlock can remain activated until you wish to start the next programme, even after switching off the machine. Then you can deactivate the childlock before starting the programme and activate it again as necessary once the programme has started. Note: – The ⬳⊚ symbol is lit: Childlock active. – The ⬳⊚ symbol flashes: Childlock active and then the programme selector is altered. To prevent the programme from stopping, move the programme selector back to the original programme, the ⬳⊚ symbol is lit again.

Add laundry

|	
𝖄𝖤𝖲 + ⊙ **Add laundry**	If you want to add additional items of laundry after the programme has started, press the ◇ (Start/**Add laundry**) button. The machine checks whether adding laundry is possible. 𝖄𝖤𝖲 + ⊙ are lit: Adding laundry is possible. 𝖓𝖔 flashing: Wait until 𝖄𝖤𝖲 + ⊙ are lit. Note: Only open the washing machine door when **both** the 𝖄𝖤𝖲 + ⊙ symbols are lit. 𝖓𝖔: It is not possible to add laundry. Note: for safety reasons, the washing machine door remains locked when the water level and/ or temperature is high, or during spinning. To continue the programme, press the ◇ (**Start**/Add laundry) button.

Energy saving mode

If the washing machine is switched on and is not operated for several minutes before the programme starts or at the end of the programme, the display panel light goes out and the ◇ (**Start/Add laundry**) button flashes.
Press any button to turn the light back on.

Individual settings

Signal

**1.** Activating the mode for setting the signal volume

Set to ⁰   1 step, the display panel lights up   Press and hold   +   1 step, release

2. Set the volume for ...

Button signals   **Information signals**

* you may need to select the function several times.

Set the volume*   *skip*   1 step   Set the volume*   Set to ⁰

◇ (Start/Add laundry)

To start the programme or to subsequently load additional laundry, and to activate/deactivate the childlock.

Overview of programmes → *Check the consumption values table on page 8 and the instructions on page 9.*

Programmes	°C	max.	Type of laundry	Additional functions; options; information
Cottons + Prewash	❄ - 90 °C	8 kg/ 5 kg*	Hard-wearing fabrics, heat-resistant fabrics made of cotton or linen	**speed** Perfect*, **eco** Perfect, (Easy-Iron), **power,** (Rinse hold = no final spin)
Easy-Care + Prewash	❄ - 60 °C		Easy-care fabrics made of cotton, linen, synthetic fibres or blended fabrics	**speed** Perfect, **eco** Perfect, (Easy-Iron), **power,** (Rinse hold = no final spin)
Mix	❄ - 40 °C	3.5 kg	Fabrics made of cotton or easy-care fabrics	**speed** Perfect, **eco** Perfect, (Easy-Iron), **power,** (Rinse hold = no final spin) ; different types of laundry can be washed together
Easy-Care Special	❄ - 40 °C		Dark-coloured fabrics made of cotton and dark easy-care fabrics	**speed** Perfect, **eco** Perfect, (Easy-Iron), **power,** (Rinse hold = no final spin) ; reduced rinse and final spin
Delicates/Silk	❄ - 40 °C		For delicate, washable fabrics, e.g. made of silk, satin, synthetic fibres or blended fabrics (e.g. curtains)	**speed** Perfect, **eco** Perfect, (Easy-Iron), **power,** (Rinse hold = no final spin) ; no spin between the rinse cycles
Wool	❄ - 40 °C		Hand or machine-washable fabrics made of wool or containing wool	(Rinse hold = no final spin); Particularly gentle wash programme to prevent shrinkage of laundry. Longer programme breaks (fabrics rest in the detergent solution)
Super Quick 15'	❄ - 40 °C	2 kg	Easy-care fabrics made of cotton, linen, synthetic fibres or blended fabrics	(Rinse hold = no final spin); Short programme, approx. 15 minutes, suitable for lightly soiled laundry
Outdoor Wear	❄ - 40 °C		All-weather, sports and outdoor wear fabrics including fabrics with weatherproof membrane	**speed** Perfect, **eco** Perfect, **power**; Reduced final spin in intervals
Shirts/Business	❄ - 40 °C		Non-iron shirts made of cotton, linen, synthetic fibres or blended fabrics	**speed** Perfect, **eco** Perfect, (Easy-Iron), **power,** (Rinse hold = no final spin) ; spin only briefly, then hang up to drip dry

Additional programmes

 Rinse, **Spin,** **Empty,** **Gentle spin**

* reduced load when using the additional **speed** Perfect function.

As a **short programme, Mix 40°C** is ideal, when maximum spin speed is selected.

i Programmes without prewash - add detergent to compartment **II**, programmes with prewash - distribute the detergent between compartments **I** and **II**.

⚠️ Safety instructions

- Read the Instruction Manual and Installation Instructions and all other information enclosed with the washing machine and act accordingly.
- Retain the documents for subsequent use.

Risk of electric shock	– Never pull on the cable to disconnect the mains plug. – Only insert/pull out the mains plug with dry hands.
Danger to life	For worn-out appliances: – Disconnect the mains plug. – Sever the mains cable and discard along with the plug. – Destroy the lock on the washing machine door. This will prevent children from locking themselves in and risking their lives.
Danger of suffocation	– Keep packaging, film and packaging parts out of the reach of children.
Risk of poisoning	– Keep detergents and care products out of the reach of children.
Risk of explosion	– Items of laundry pretreated with cleaning agents containing solvents, e.g. stain remover/cleaning solvent may cause an explosion after being loaded into the washing machine. Rinse items of laundry thoroughly by hand beforehand.
Risk of injury	– The washing machine door can become very hot. – Be careful when emptying hot detergent solution. – Do not climb onto the washing machine. – Do not lean on the open washing machine door. – Do not reach into the drum if it is still rotating.

Consumption values

Programme	Additional function	Load	Electricity***	Water***	Programme duration***
🌡 Cottons 30 °C**		8 kg	0.35 kWh	76 l	2:20 h
🌡 Cottons 40 °C**		8 kg	0.97 kWh	76 l	2:30 h
🌡 Cottons 60 °C**		8 kg	1.36 kWh	76 l	2:40 h
🌡 Cottons 60 °C	🍃 eco Perfect*	8 kg	1.03 kWh	56 l	3:25 h
🌡 Cottons 90 °C		8 kg	2.34 kWh	87 l	2:30 h
🌡 Mix 40 °C**		3.5 kg	0.47 kWh	49 l	1:01 h
🌡 Easy-Care 40 °C**		3.5 kg	0.55 kWh	55 l	1:43 h
🌡 Delicates/Silk ❄ (cold)		2 kg	0.04 kWh	35 l	0:41 h
🌡 Delicates/Silk 30 °C		2 kg	0.14 kWh	35 l	0:41 h
🌡 Wool ❄ (cold)		2 kg	0.06 kWh	40 l	0:40 h
🌡 Wool 30 °C		2 kg	0.16 kWh	40 l	0:40 h

* Programme setting for testing and energy labelling in accordance with EU directive 92/75/EEC.
** Programme setting for testing in accordance with applicable standard EN60456.
  Note on comparative tests: When using the test programmes, wash the specified load using the maximum spin speed.
  As a **short programme** for coloureds, select the **Mix 40 °C** programme with maximum spin speed.
*** The values may deviate from the specified values depending on water pressure, water hardness, and inlet temperature, ambient temperature, type, amount and level of laundry soiling, detergent used, fluctuations in the power supply and selection of additional functions.

⚠️ Important information

ℹ️ Before washing for the first time

Do not put any laundry in the machine. Turn the tap on. Pour the following into compartment **II**:
– approx. **1 litre** water
– detergent (amount to be used according to the manufacturer's instructions for light soiling and according to water hardness)
Turn the programme selector to **Easy-Care 60 °C** and press ◊ (**Start**/Add laundry). At the end of the programme, turn the programme selector to **Off**.

👕 Protecting the laundry and the machine

- When measuring detergent, care products and cleaning agents, follow the manufacturer's instructions.
- Empty pockets.
- Look out for metal items (paperclips, etc.).
- Wash delicates in a laundry bag (tights, curtains, underwired bras).
- Fasten zips, do up any buttons.
- Brush sand out of pockets and collars.
- Remove curtain fittings or place in the laundry bag.

ℹ️ Loading laundry

Insert items of laundry of varying sizes.
Take care not to trap items of laundry between the washing machine door and the rubber seal.

👕 Laundry with varying degrees of soiling

		Wash new items of clothing separately.
light		Do not pre-wash. If required, select the additional ⏱ **speed** Perfect function.
	—	Pretreat any stains as necessary.
heavy	≡	Do not load as much laundry. Select the programme with Prewash.

🧺 Soaking — *Load laundry of the same colour.*

Pour soaking agent/detergent into compartment **II** in accordance with the manufacturer's instructions. Turn the programme selector to **Cottons 30 °C** and press ◊ (**Start**/Add laundry). After approx. 10 minutes, press ◊ (Start/**Add laundry**) to stop the programme. After the required soaking time, press ◊ (**Start**/Add laundry) again to continue the programme, or change the programme.

Starching — *Laundry must not be treated with fabric softener*

Starching is possible in all wash programmes if liquid starch is used. Pour starch into the ❀ fabric softener compartment in accordance with the manufacturer's instructions (rinse first if necessary).

Dyeing/bleaching

Dye should only be used in normal household quantities. Salt may damage stainless steel. Always follow the dye manufacturer's instructions. Do **not** use the washing machine for bleaching clothes.

Outdoor — *Laundry must not be treated with fabric softener.*

Special detergent suitable for machine washing is available particularly in sports shops. For dosage information, see the manufacturer's instructions. Special detergent for outdoor clothing in compartment **II.**
Turn the programme selector to ⋀⋀. **Outdoor Wear** Select the temperature and ◊ (**Start**/Add laundry).

⚠️ *Insert for liquid detergent* *model-dependent*

Position the insert for dispensing liquid detergent:
– Remove the detergent drawer completely ⟶ *page 10*.
– Slide the insert forwards.
Do not use the insert (slide upwards):
– For gel-type detergents and washing powder,
– For programmes with ⌣ **+Prewash** or ⏱ (Finished in) option

Care

⚠️ – **Risk of electric shock.** *Disconnect the mains plug.*
– **Risk of explosion.** *No solvents.*

● *Machine housing, control panel*

– Remove detergent residue immediately.
– Wipe with a soft, damp cloth.
– Do not clean with a jet of water.

Cleaning the detergent drawer ...

... if it contains detergent or fabric softener residues.

1. Pull out, press insert down, remove drawer completely.
2. To remove the insert: press the insert upwards from below with your finger.
3. Clean the detergent dispenser tray and insert with water and a brush and dry it.
4. Fit the insert and engage (connect the cylinder to the guide pin).
5. Push in the detergent drawer.

ℹ️

Leave the detergent drawer open so that any residual water can evaporate.

● *Drum*

Leave the washing machine door open so that the drum can dry out.
Use chlorine-free cleaning agent, not steel wool.

● *Descaling* *Ensure there is no laundry in the machine*

This should not be necessary if the correct detergent dosage has been used. If it is necessary, however, proceed according to the descaling agent manufacturer's instructions. Suitable descalers can be obtained via our website or from our after-sales service (⟶ *page 13*).

Instructions in the display panel *depending on model*

|	
⟳ flashing	Close the washing machine door properly; laundry may be caught.
E:17,29	Open the tap completely, supply hose kinked or trapped; Clean the filter ⟶ *page 11*, water pressure too low.
E:18	Detergent solution pump blocked; Clean the detergent solution pump ⟶ *page 11*. Drain hose/waste pipe blocked; Clean the drain hose at the siphon ⟶ *page 11*.
E:23	Water in the base tub, appliance leaking. Call the after-sales service.
Other displays	Switch off the appliance, wait for 5 seconds and switch it back on. If the display appears again, call the after-sales service ⟶ *page 13*.

Information about blockages

⚠️ **Risk of scalding!**
– *Allow the detergent solution to cool down.*
– *Turn off the tap.*

Detergent solution pump

Turn the programme selector to **Off** and disconnect the mains plug.

1. Open and remove the service flap.

2. Take the drain hose out of the retainer.
Remove the sealing cap, allow the detergent solution to flow out.
Push the sealing cap back on.

3. Unscrew the pump cover carefully (residual water).

4. Clean the interior, pump cover thread and pump housing (the impeller in the detergent solution pump must be able to rotate).

5. Replace the pump cover and screw it on tightly. The handle points upright. Replace the drain hose in the holder.

6. Refit the service flap and close it.

ℹ️

To prevent unused detergent from flowing straight into the drain during the next wash:
Pour 1 litre of water into compartment **II** and start the ⤵ **Empty** programme.

Drain hose on the siphon

Turn the programme selector to **Off** and disconnect the mains plug.

1. Loosen the hose clamp, remove the drain hose carefully (residual water).
2. Clean the drain hose and siphon connecting piece.
3. Reattach the drain hose and secure the connection with the hose clamp.
Filter in the water supply

⚠️ **Risk of electric shock**
Do not immerse the AquaStop safety device in water (contains electric valve).
Reduce the water pressure in the supply hose:
1. Turn off the tap.
2. Select any programme (except ⟳ Spin/⤵ Empty).
3. Press ◇ (**Start**/Add laundry). Let the programme run for approximately 40 seconds.
4. Turn the programme selector to **Off**. Disconnect the mains plug.

5. Clean the filter:
Disconnect the hose from the tap.
Clean the filter with a small brush.

and/or on standard and Aquasecure models:
Remove the hose from the back of the appliance,
Remove the filter using pliers and clean the filter.

6. Connect the hose and check for leaks.

What to do if...

●	Water is leaking out.	– Attach/replace the drain hose correctly. – Tighten the screw connection of the supply hose.
●	No water supply. Detergent not flushed into machine.	– ◇ (**Start**/Add laundry) not pressed? – Tap not turned on? – Filter blocked? Clean the filter ⟶ *page 11.* – Supply hose kinked or trapped?
●	Washing machine door cannot be opened.	– Safety function active. Programme stopped? ⟶ *page 4.* – ∅ (Rinse hold = no final spin) selected? ⟶ *page 3, 4.* – Can be opened by emergency release only? ⟶ *page 13.*
●	Programme does not start.	– ◇ (**Start**/Add laundry) pressed or ⏲ (Finished in) time selected? – Washing machine door closed? – Childlock active? Deactivate ⟶ *page 5.*
●	Detergent solution does not empty.	– ∅ (Rinse hold = no final spin) selected? ⟶ *page 3, 4.* – Clean the detergent solution pump ⟶ *page 11.* – Clean the waste pipe and/or drain hose.
●	Water not visible in the drum.	– Not a fault - water below the visible area.
●	Spin result not satisfactory. Laundry wet/too damp.	– Not a fault - the unbalanced-load detection system has interrupted the spin because the laundry is unevenly distributed. Distribute large and small items of laundry evenly in the drum. – ⬚ (Easy-Iron) selected? ⟶ *page 5.* – Speed selected too low? ⟶ *page 5.*
●	The programme duration changes during the washing cycle.	– Not a fault - the programme sequence is optimised for the relevant washing process. This can cause changes in the programme duration in the display panel.
●	Repeated spin start-up.	– Not a fault - unbalanced-load detection system is adjusting the imbalance.
●	Residual water in the ❀ compartment for care products.	– Not a fault - the action of the care product is not affected. – Clean the insert if necessary ⟶ *page 10.*
●	Odour formation in the washing machine.	– Run the ⟥ **Cottons 90 °C** programme on the empty washing machine. Use standard detergent.
●	Status indicator ⟺ flashing. Detergent may escape from the detergent drawer.	– Too much detergent used? Mix 1 tablespoon of fabric softener with ½ litre water and pour the mixture into compartment **II**. *(Not for outdoor textiles or those made with down.)* – Reduce the detergent dosage for the next wash cycle.
●	Pronounced generation of noise , vibration and "wandering" during the spin cycle.	– Are the appliance feet fixed? Secure appliance feet ⟶ *Installation instructions.* – Transportation safety devices removed? Remove transportation safety devices ⟶ *Installation instructions.*
●	Noises during spinning and emptying.	– Clean the detergent solution pump ⟶ *page 11.*
●	Display panel/indicator lamps do not function during operation.	– Power cut? – Circuit breakers tripped? Switch the circuit breakers back on or replace. – Energy saving mode active? – If a fault occurs repeatedly, call the after-sales service.
●	Programme sequence longer than usual.	– Not a fault - unbalanced-load detection system is adjusting the imbalance by repeatedly redistributing the laundry. – Not a fault - foam detection system active - adds an additional rinse cycle.
●	There are detergent residues on the laundry.	– In isolated cases, phosphate-free detergents contain water-insoluble residues. – Select ⟿ **Rinse** or brush down the laundry after washing.

What to do if...

●	In Add laundry mode, ◇ (**Start/Add laundry**) flashes very quickly and a signal sounds	– Water level too high. Not possible to add more laundry. Close the washing machine door immediately if necessary. – Press ◇ (**Start**/Add laundry) to continue the programme.

If you cannot correct a fault yourself (switching on/off) or a repair is required:

– Turn the programme selector to **Off** and pull the mains plug out of the socket.
– Turn off the tap and call the after-sales service ⟶ *page 13.*
Emergency release *e.g. in the event of a power cut*

⬆ The programme continues when the power supply is restored. However, if the laundry has to be removed, the washing machine door can be opened as follows:

⚠ **Risk of scalding**

The detergent solution and laundry may be hot. If possible, leave to cool down.
Do not reach into the drum if it is still rotating.
Do not open the washing machine door if water can be seen through the glass.

1. Turn the programme selector to **Off** and pull out the mains plug.
2. Empty the detergent solution ⟶ *page 11.*
3. Pull the emergency release downwards with a tool and release.
   Washing machine door can then be opened.

After-sales service

● If you cannot remedy the fault yourself (What to do if ..., ⟶ *page 12, 13*), contact our after-sales service. We will always find a suitable solution to avoid unnecessary visits by repair personnel.

● The contact details of your nearest after-sales service can be found here or in the after-sales service directory (model-dependent).

– **GB**   0844 8928999   (Calls from a BT landline will be charged at up to 3 pence per minute.
                           A call set-up fee of up to 6 pence may apply).

– **IE**   01450 2655

● Please give the after-sales service the product number (E no.) and the production number (FD) of the appliance.

E-Nr._____ FD_____
Product number   Production number

This information can be found:
on the inside of the washing machine door* /
open service flap* and on the rear of the appliance.
*depending on the model

● **Trust the manufacturer's competence.** Turn to us.
By doing so, you will ensure that the repair is carried out by trained service technicians equipped with original spare parts
