# / Important information

#### Before washing for the first time

Do not put any laundry in the machine. Turn the tap on. Pour the following into compartment II:

- Slide the insert forwards. Do not use the insert (slide upwards): detergent (amount to be used according to the manufacturer's instructions for light soiling and according to water

Turn the programme selector to 🏠 Easy-Care 60 °C and press 🛇 Start/Reload.

At the end of the programme, turn the programme selector to **Off**.

Protecting the laundry and the machine - When measuring detergent, care products and cleaning agents, follow the manufacturer's instructions.

Brush sand out of pockets and collars.

Look out for metal items (paperclips, etc.).

Wash delicates in a laundry bag (tights, curtains, underwired bras).

Fasten zips, do up any buttons.

Remove curtain fittings or place in the laundry bag. Loading laundry

Insert items of laundry of varying sizes.

Take care not to trap items of laundry between the washing machine door and the rubber seal.

Laundry with varying degrees of soiling

Wash new items of clothing separately Do not pre-wash. If required, select the additional  $\exists T$  speed Perfect function. Pretreat any stains as necessary.

Load laundry of the same colour

Pour soaking agent/detergent into compartment **II** in accordance with the manufacturer's instructions. Turn the programme selector to Ta Cottons 30 °C and press Start/Reload.

After approx. 10 minutes, press ♦ Start/Reload to stop the programme.

- After the required soaking time, press  $\diamondsuit$  **Start**/Reload again to continue the programme, or change the

Laundry must not be treated with fabric softener

—— Starching is possible in all wash programmes if liquid starch is used. Pour starch into the 🍪 fabric softener compartment in accordance with the manufacturer's instructions (rinse first if necessary).

Dye should only be used in normal household quantities. Salt may damage stainless steel. Always follow the dve manufacturer's instructions. Do **not** use the washing machine for bleaching clothes.

Special detergent suitable for machine washing is available particularly in sports shops. For dosage information, see the manufacturer's instructions. Special detergent for outdoor clothing in compartment II. 

Position the insert for dispensing liquid detergent:

Remove the detergent drawer completely → page 10.

 For gel-type detergents and washing powder. 

#### Machine housing, control panel

Remove detergent residue immediately.

 Wipe with a soft, damp cloth. Do not clean with a jet of water

Cleaning the detergent drawer.

 Pull out, press insert down, remove drawer completely. **2.** To remove the insert: press the insert upwards from below with your finger.

**4.** Fit the insert and engage (connect the cylinder to the guide pin). **5.** Push in the detergent drawer.

Leave the detergent drawer open so that any residual water can evaporate.

Do not load as much laundry. Select the programme with Prewash.

Ensure there is no laundry in the machine This should not be necessary if the correct detergent dosage has been used. If it is necessary, however, proceed according to the descaling agent manufacturer's instructions. Suitable descalers can be obtained via our website or

#### Leave the washing machine door open so that the drum can dry out. Use chlorine-free cleaning agent, not steel wool.

ش Easy Care Plus	\$ - 40 °C		Dark-coloured fabrics made of cotton and dark easy-care fabrics	王 Speed Perfect, <b>Ø eco</b> Perfect, <u>之</u> (Easy-Iron), <del>这</del> (Extra Rinse); Ø (Rinse hold = no final spin); reduced rinse and final spin
☐ Delicate/Silk	* - 40 °C		For delicate, washable fabrics, e.g. made of silk, satin, synthetic fibres or blended fabrics (e.g. curtains)	=① speed Perfect, <b>Ø eco</b> Perfect, △ (Easy-Iron), ➡ (Extra Rinse); Ø (Rinse hold = no final spin); no spin between the rinse cycles
₩ Wool @	* - 40 °C		Hand or machine-washable fabrics made of wool or containing wool	© (Rinse hold = no final spin); Particularly gentle wash programme to prevent shrinkage of laundry. Longer programme breaks (fabrics rest in the detergent solution)
Super 15¹	* - 40 °C	2 kg	Easy-care fabrics made of cotton, linen, synthetic fibres or blended fabrics	@ (Rinse hold = no final spin); Short programme, approx. 15 minutes, suitable for lightly soiled laundry
Shirts/Business	* - 40 °C		Non-iron shirts made of cotton, linen, synthetic fibres or blended fabrics	=U speed Perfect, <b>Ø</b> eco Perfect, <u>D</u> (Easy-Iron), <del>©</del> (Extra Rinse); Ø (Rinse hold = no final spin); spin only briefly, then hang up to drip dry
// Outdoor	<b>※</b> - 40 °C		All-weather, sports and outdoor wear fabrics including fabrics with weatherproof membrane	=① <b>speed</b> Perfect, <b>Ø eco</b> Perfect, औ (Extra Rinse); reduced final spin in intervals
Additional programmes	es		യ Rinse, © Spin	ভ Rinse, © Spin, ৮√ Empty, © Low Spin

reduced load when using the additional **ED speed** Perfect function.
As a **short programme, & Mix 40 °C** is ideal, when maximum spin speed is selected.
Programmes without prewash - add detergent to compartment **II,** programmes with prewash - distribute the detergent between compartments I and **II.** 

WM12S468ME

Siemens Electrogeräte GmbH Carl-Wery-Str. 34 81739 München / Deutschland

#### Safety instructions

- Read the Instruction Manual and Installation Instructions and all other information enclosed with the washing machine and act accordingly.
- Retain the documents for subsequent use.

Risk of electric shock

- Never pull on the cable to disconnect the mains plug.
- Only insert/pull out the mains plug with dry hands.

Danger to life

For worn-out appliances:

- Disconnect the mains plug.
- Sever the mains cable and discard along with the plug.
- Destroy the lock on the washing machine door. This will prevent children from locking themselves in and risking their lives.

Danger of suffocation

Keep packaging, film and packaging parts out of the reach of children.

Risk of poisoning

Keep detergents and care products out of the reach of children.

Risk of explosion

 Items of laundry pretreated with cleaning agents containing solvents, e.g. stain remover/cleaning solvent may cause an explosion after being loaded into the washing machine.

Rinse items of laundry thoroughly by hand beforehand.

Risk of injury

- The washing machine door can become very hot.
- Be careful when emptying hot detergent solution.
- Do not climb onto the washing machine.
- Do not lean on the open washing machine door.
- Do not reach into the drum if it is still rotating.

#### Consumption values

Programme	Load	Electricity***	Water***	Programme duration***
ប្រីធ្លី Cottons 30 °C*	8 kg	0.35 kWh	76 I	2:20 h
ប្រជា Cottons 40 °C*	8 kg	0.97 kWh	761	2:30 h
ប៉ូណិ Cottons 60 °C*	8 kg	1.36 kWh	761	2:40 h
ប្រជា Cottons 90 °C	8 kg	2.34 kWh	87 I	2:30 h
ՃՊ Mix 40 °C*	3.5 kg	0.47 kWh	491	1:01 h
d Easy-Care 40 °C*	3.5 kg	0.55 kWh	55 I	1:43 h
☐ Delicates/Silk 30 °C	2 kg	0.14 kWh	351	0:41 h
	2 kg	0.16 kWh	401	0:40 h

Programme setting for testing in accordance with applicable standard EN60456. Note on comparative tests: When using the test programmes, wash the specified load using the maximum spin speed.

Programme	Additional function	Load	Annual energy consumption	Annual water consumption
TA Cottons 40/60 °C	<b>Ø eco</b> Perfect**	8/4 kg	189 kWh	10500 l

<sup>\*\*</sup> Programme setting for testing and energy labelling in accordance with EU directive 2010/30/EU with cold water (15 °C). \*\*\* The values may deviate from the specified values depending on water pressure, water hardness, and inlet temperature, ambient temperature, type, amount and level of laundry soiling, detergent used, fluctuations in the power supply and selection of additional functions.

#### Important information

#### Before washing for the first time

Do not put any laundry in the machine. Turn the tap on. Pour the following into compartment II:

- approx. 1 litre water
- detergent (amount to be used according to the manufacturer's instructions for light soiling and according to water

Turn the programme selector to & Easy-Care 60 °C and press Start/Reload.

At the end of the programme, turn the programme selector to **Off**.

#### Protecting the laundry and the machine

- When measuring detergent, care products and cleaning agents, follow the manufacturer's instructions.
- Empty pockets.
- Look out for metal items (paperclips, etc.).
- Wash delicates in a laundry bag (tights, curtains, underwired bras).
- Fasten zips, do up any buttons.
- Brush sand out of pockets and collars.
- Remove curtain fittings or place in the laundry bag.

#### Loading laundry

Insert items of laundry of varying sizes.

Take care not to trap items of laundry between the washing machine door and the rubber seal.

#### Laundry with varying degrees of soiling

Wash new items of clothing separately.

light	Do not pre-wash. If required, select the additional = speed Perfect function.
	Pretreat any stains as necessary.
heavy	Do not load as much laundry. Select the programme with Prewash.

#### Soakina

Load laundry of the same colour.

- Pour soaking agent/detergent into compartment II in accordance with the manufacturer's instructions.
- Turn the programme selector to Y\(\tilde{\Omega}\) Cottons 30 °C and press ♦ Start/Reload.
- After approx. 10 minutes, press ♦ Start/Reload to stop the programme.
- After the required soaking time, press  $\diamondsuit$  **Start**/Reload again to continue the programme, or change the programme.

#### Starching

Laundry must not be treated with fabric softener

Starching is possible in all wash programmes if liquid starch is used. Pour starch into the & fabric softener compartment in accordance with the manufacturer's instructions (rinse first if necessary).

#### Dyeing / bleaching

Dye should only be used in normal household quantities. Salt may damage stainless steel. Always follow the dye manufacturer's instructions. Do **not** use the washing machine for bleaching clothes.

#### **Outdoor**

Laundry must not be treated with fabric softener.

Special detergent suitable for machine washing is available particularly in sports shops. For dosage information, see the manufacturer's instructions. Special detergent for outdoor clothing in compartment II.

Turn the programme selector to \( \sigma \). **Outdoor**. Select the temperature and \( \Delta \) **Start**/Reload.

# Insert for liquid detergent model-dependent

Position the insert for dispensing liquid detergent:

- Remove the detergent drawer completely → page 10.
- Slide the insert forwards.

Do not use the insert (slide upwards):

- For gel-type detergents and washing powder,
- For programmes with + **Prewash**  $\cup$  or  $\bigcirc$  (Finished in) option

#### Care

Risk of electric shock. Disconnect the mains plug. Risk of explosion. No solvents.

#### Machine housing, control panel

- Remove detergent residue immediately.
- Wipe with a soft, damp cloth.
- Do not clean with a jet of water.

#### Cleaning the detergent drawer ...

- ... if it contains detergent or fabric softener residues.
- 1. Pull out, press insert down, remove drawer completely
- 2. To remove the insert: press the insert upwards from below with your finger.
- 3. Clean the detergent dispenser tray and insert with water and a brush and dry it.
- **4.** Fit the insert and engage (connect the cylinder to the guide pin).
- **5.** Push in the detergent drawer.

\_eave the detergent drawer open so that any residual water can evaporate.

Leave the washing machine door open so that the drum can dry out. Use chlorine-free cleaning agent, not steel wool.

#### Ensure there is no laundry in the machine

This should not be necessary if the correct detergent dosage has been used. If it is necessary, however, proceed according to the descaling agent manufacturer's instructions. Suitable descalers can be obtained via our website or from our after-sales service ( $\longrightarrow$  page 13).

# Instructions in the display panel depending on model

	Close the washing machine door properly, laundry may be caught.
E: 17, 29	Open the tap completely, supply hose kinked or trapped; Clean the filter → page 11, water pressure too low.
E: 18	Detergent solution pump blocked; Clean the detergent solution pump → page 11.  Drain hose/waste pipe blocked; Clean the drain hose at the siphon → page 11.
E: 23	Water in the base tub, appliance leaking. Call the after-sales service.
Other displays	Switch off the appliance, wait for 5 seconds and switch it back on. If the display appears again, call the after-sales service $\longrightarrow$ page 13.

#### Information about blockages

#### Risk of scalding!

- Allow the detergent solution to cool down.
- Turn off the tap.

#### Detergent solution pump

Turn the programme selector to **Off** and disconnect the mains plug.

- 1. Open and remove the service flap.
- 2. Take the drain hose out of the retainer. Remove the sealing cap, allow the detergent solution to flow out. Push the sealing cap back on.

- **3.** Unscrew the pump cover carefully (residual water).
- 4. Clean the interior, pump cover thread and pump housing (the impeller in the detergent solution pump must be able to rotate).

- **6.** Refit the service flap and close it.
- To prevent unused detergent from flowing straight into the drain during the next wash: Pour 1 litre of water into compartment **II** and start the **Empty** programme.

Turn the programme selector to **Off** and disconnect the mains plug.

- 1. Loosen the hose clamp, remove the drain hose carefully (residual water).
- **2.** Clean the drain hose and siphon connecting piece.
- 3. Reattach the drain hose and secure the connection with the hose clamp.

#### Filter in the water supply Risk of electric shock

Do not immerse the AquaStop safety device in water (contains electric valve).

Reduce the water pressure in the supply hose:

- 1. Turn off the tap.
- 2. Select any programme (except © Spin / 😝 Empty).
- 3. Press **Start**/Reload. Let the programme run for approximately 40 seconds.
- 4. Turn the programme selector to Off. Disconnect the mains plug.

Clean the filter:

**5.** Disconnect the hose from the tap. Clean the filter with a small brush.

> and/or on standard and Aguasecure models: Remove the hose from the back of the appliance, Remove the filter using pliers and clean the filter.

Connect the hose and check for leaks.

#### What to do if...

	Water is leaking out.	<ul><li>Attach/replace the drain hose correctly.</li><li>Tighten the screw connection of the supply hose.</li></ul>
•	No water supply. Detergent not flushed into machine.	<ul> <li>→ Start/Reload not pressed?</li> <li>Tap not turned on?</li> <li>Filter blocked? Clean the filter → page 11.</li> <li>Supply hose kinked or trapped?</li> </ul>
	Washing machine door cannot be opened.	<ul> <li>Safety function active. Programme stopped? → page 4.</li> <li>Ø (Rinse hold = no final spin) selected? → page 3, 4.</li> <li>Can be opened by emergency release only? → page 13.</li> </ul>
	Programme does not start.	<ul> <li>→ Start/Reload pressed or ⊕ (Finished in) time selected?</li> <li>- Washing machine door closed?</li> <li>- Childlock active? Deactivate → page 5.</li> </ul>
•	Detergent solution does not empty.	<ul> <li>Ø (Rinse hold = no final spin) selected? → page 3, 4.</li> <li>Clean the detergent solution pump → page 11.</li> <li>Clean the waste pipe and/or drain hose.</li> </ul>
	Water not visible in the drum.	- Not a fault - water below the visible area.
	Spin result not satisfactory. Laundry wet/too damp.	<ul> <li>Not a fault - the unbalanced-load detection system has interrupted the spin because the laundry is unevenly distributed.         Distribute large and small items of laundry evenly in the drum.     </li> <li>         Easy-Iron) selected? → page 5.     </li> <li>Speed selected too low? → page 5.</li> </ul>
	The programme duration changes during the washing cycle.	<ul> <li>Not a fault - the programme sequence is optimised for the relevant washing process. This can cause changes in the programme duration in the display panel.</li> </ul>
	Repeated spin start-up.	- Not a fault - unbalanced-load detection system is adjusting the imbalance.
	Residual water in the & compartment for care products.	<ul> <li>Not a fault - the action of the care product is not affected.</li> <li>Clean the insert if necessary → page 10.</li> </ul>
	Odour formation in the washing machine.	<ul> <li>Run the 设备 Cottons 90 °C programme on the empty washing machine.</li> <li>Use standard detergent.</li> </ul>
	Status indicator $\Leftrightarrow$ flashing. Detergent may escape from the detergent drawer.	<ul> <li>Too much detergent used?</li> <li>Mix 1 tablespoon of fabric softener with ½ litre water and pour the mixture into compartment II. (Not for outdoor textiles or those made with down.)</li> <li>Reduce the detergent dosage for the next wash cycle.</li> </ul>
•	Pronounced generation of noise, vibration and "wandering" during the spin cycle.	<ul> <li>Are the appliance feet fixed?</li> <li>Secure appliance feet → Installation instructions.</li> <li>Transportation safety devices removed?</li> <li>Remove transportation safety devices → Installation instructions.</li> </ul>
	Noises during spinning and emptying.	<ul> <li>Clean the detergent solution pump → page 11.</li> </ul>
•	Display panel/indicator lamps do not function during operation.	<ul> <li>Power cut?</li> <li>Circuit breakers tripped? Switch the circuit breakers back on or replace.</li> <li>Energy saving mode active?</li> <li>If a fault occurs repeatedly, call the after-sales service.</li> </ul>
	Programme sequence longer than usual.	<ul> <li>Not a fault - unbalanced-load detection system is adjusting the imbalance by repeatedly redistributing the laundry.</li> <li>Not a fault - foam detection system active - adds an additional rinse cycle.</li> </ul>
	There are detergent residues on the laundry.	<ul> <li>In isolated cases, phosphate-free detergents contain water-insoluble residues.</li> <li>Select Rinse or brush down the laundry after washing.</li> </ul>

#### What to do if...

♦ Start/Relolad flashes very quickly and a signal sounds

- Water level too high. Not possible to add more laundry. Close the washing machine door immediately if necessary.
- Press Start/Reload to continue the programme.

If you cannot correct a fault yourself (switching on/off) or a repair is required:

- Turn the programme selector to **Off** and pull the mains plug out of the socket.
- Turn off the tap and call the after-sales service  $\longrightarrow$  page 13.

#### Emergency release e.g. in the event of a power cut

The programme continues when the power supply is restored. However, if the laundry has to be removed, the washing machine door can be opened as follows:

#### Risk of scalding

The detergent solution and laundry may be hot. If possible, leave to cool down. Do not reach into the drum if it is still rotating.

Do not open the washing machine door if water can be seen through the glass.

- 1. Turn the programme selector to Off and pull out the mains plug.
- **2.** Empty the detergent solution  $\longrightarrow$  page 11.
- 3. Pull the emergency release downwards with a tool and release. Washing machine door can then be opened.

#### After-sales service

- If you cannot remedy the fault yourself (What to do if ..., → page 12, 13), contact our after-sales service. We will always find a suitable solution to avoid unnecessary visits by repair personnel.
- The contact details of your nearest after-sales service can be found here or in the after-sales service directory (model-dependent).
  - GB 0844 8928999 (Calls from a BT landline will be charged at up to 3 pence per minute. A call set-up fee of up to 6 pence may apply).
  - IE 01450 2655

Product number

Please give the after-sales service the product number (E-Nr.) and the production number (FD) of the appliance.
