Environmentally friendly waste disposal

All packaging must be disposed of in accordance with environmental guidelines.

This appliance is certified in accordance with European Directive 2002/96/EC on waste electrical and electronic equipment (WEEE) This directive provides the framework for the EU-wide collection and reuse of used appliances.

Intended use Programmes Setting and adjusting the programme Washing ... After washing . Individual settings Important information Overview of programmes Safety instructions Consumption values Before washing for the first time/Care Information to indicator lights Maintenance ■ What to do if...

Environmental protection/Conservation tips - Always fill the washing machine with a maximum amount of

laundry for the relevant programme

significantly lower energy consumption

- Wash normally soiled washing without a pre-wash.
- Instead of Cottons 90 °C, choose the programme Cottons Eco 60 °C. Comparable cleaning result with
- Measure the detergent according to the manufacturer's
- instructions and water hardness.
- If the laundry is then dried in the tumble dryer, select the spin speed according to the instructions of the dryer manufacturer.

ntended use

- for use in the household only,
- for machine-washable fabrics and hand-washable wool in detergent solution,
- to be operated with cold drinking water and commercially available detergents and care products which are suitable for use in washing machines.
- The washing machine may be operated by children from 8 years of age, by persons who have limited physical, sensory or mental abilities and by persons who have inadequate experience or knowledge, provided they are supervised or have been instructed by a responsible person.

Safety instructions

 Read the instruction manual and installation instructions and all other information enclosed with the washing machine and act accordingly. Retain the documents for subsequent use.

Risk of electric shock – Never pull the cable to disconnect the mains plug.

Never insert/disconnect the mains plug with damp hands.

Danger to life

For worn-out appliances:

- Disconnect the mains plug.
- Sever the mains cable and discard along with the plug. Destroy the lock on the washing machine door. This will prevent
- Danger of suffocation
 - Keep packaging, film and packaging parts out of the reach of

children from locking themselves in and risking their lives.

Risk of poisoning Risk of explosion

Risk of injury

- Keep detergents and care products out of the reach of children.
- Items of laundry pretreated with cleaning agents containing solvents, e.g. stain remover/cleaning solvent may cause an explosion after being loaded into the washing machine.
- Rinse items of laundry thoroughly by hand beforehand.
- The washing machine door can become very hot. Be careful when draining hot detergent solution.
- Do not climb onto the washing machine.
- Do not lean on the open washing machine door.
- Do not reach into the drum if it is still rotating.
- Be careful when opening the detergent drawer while the machine is in operation.
