Your washing machine

Congratulations – You have opted for a modern, high-guality domestic appliance manufactured by Siemens. The washing machine is distinguished by its economical consumption of water and energy.

Each appliance which leaves our factory is inspected thoroughly to ensure that it functions properly and is in perfect condition.

Further information on our products, accessories, spare parts and services can be found at: www.siemens-home.com or contact our customer service centres.

Intended use

for use in the household only.

- for washing machine-washable textiles and hand-washable wool in wash liquor.
- to be operated with cold drinking water and commercially available detergents and care products which are suitable for use in washing machines.

Page

- Do not leave children unattended near the washing machine!
- Children and uninstructed persons must not use the washing
- Keep pets away from the washing machine!
- Switch on washing machine only with base strip attached

Checking the machine

Insert mains plug

Turn on the tab

Insert for liquid detergent (depending on model) \rightarrow Page 9

Dispenser II: detergent for main wash, water softener.

The selectable maximum spin speed depends on the model and the selected programme.

The respective programme duration is displayed by selecting the programme. The programme start can be delayed before the programme begins. The () (Finish in) time can be set in hour steps up to maximum 24h. Keep pressing the () (Finish in) button until the required number of hours is indicated (h=hour). Select (Start/Pause). Settings cannot be made when the programme has started.

Ecco⁺ (Intensive Wash) Extension of the washing time for a more intensive washing of highly soiled washing.

For heavily soiled washing. Prewash at 30 °C.

Special spin sequence with subsequent fluffing. Gentle final spin at reduced spin speed. Residual moisture of the washing slightly increased.

Additional rinse cycle. Longer programme duration.

For areas with very soft water or for further improvement of the rinsing result.

Important information

Before using your washing machine for the first time Do not put any washing in the washing machine! Turn the tap on. Pour into dispenser II:

approx. 1 litre water.

- Detergent (dosage according to manufacturer's instructions for light soiling and according to degree of water hardness).
 Set programme selector to Set asy-Care 60 °C and select (Start/Pause).
- At the end of the programme set the programme selector to O Off.

Protecting the washing and the machine

- When dosing all detergents, cleaning aids and cleaning agents, always follow the manufacturer's instructions.
- Remove metal parts (paper clips, etc.).
- Wash delicates in the net/bag (tights, curtains, underwired bras).
- Close zips, button up covers.
- Brush sand out of pockets and collars.
- Remove curtain fittings or include in the net/bag

Insert large and small items of washing!

Do not jam items of washing between the washing machine door and rubber seal.

Washing with different degrees of soiling

		Wash new items separately.
Light		Do not Prewash.
		If required, pretreat stains. Select
Heavy		Load less washing. Select programme with Prewash. If required, pretreat stains. Select
	Light	Light

Load washing of the same colour.

Pour soaking agent/detergent into dispenser II according to the manufacturer's instructions. Set programme selector to 🛛 Cottons 30 °C and select \land (Start/Pause). After approx. 10 minutes select \land (Start/Pause) to stop the programme After the required soaking time reselect (**Start**/Pause) if the programme is to be continued or change the programme.

Washing should not be treated with fabric softener.

Liquid starch can be used in all wash programmes. Pour starch into the fabric softener dispenser 🏵 according o manufacturer's specifications (if required clean beforehand).

Dye in household quantities only. Salt may attack stainless steel! Observe specifications of the dye manufacturer! Do not bleach washing in the washing machine! 🔺 🔨 \land Outdoor Wear

The laundry must not be treated with fabric softener.

Special detergents suitable for machine wash available in particular from sports shops. Dosage according to manufacturer's instructions. Dose special detergent for outdoor textiles in dispenser **II**. Set programme selector to \wedge **Outdoor**. Select temperature and \oplus (**Start**/Pause).

Emergency release, e.g. if power failure occurs.

The programme continues running when the power supply is restored. If the washing is still to be removed, the door can be opened as described below:

Risk of scalding!

Detergent solution and washing may be hot. If required, leave to cool down. Do not reach into the drum in case it is still rotating. Do not open the door if you can still see water through the glass.

- **1.** Set programme selector to **O Off**., pull out the mains plug.
- **2.** Removing base strip \rightarrow see separate installation instructions.
- **3.** Drain the water. \rightarrow Page 10
- **4.** Pull down emergency release with a tool and release. Door can then be opened.
- **5.** Attaching base strip \rightarrow see separate installation instructions.

Safety instructions

- Read and follow the operating and installation instructions and all other information enclosed with the washing machine.

- Retain documents for subsequent use.

Risk of electric shock	 Never pull out the mains plug by tugging the power cord! Insert/pull out the mains plug with dry hands only.
Danger to life	 On redundant appliances: Pull out the mains plug! Sever the power cord and discard together with the plug. Destroy the lock on the washing-machine door. This will prevent children from locking themselves in and suffocating.
Risk of suffocation	 Keep packaging, plastic film and packaging parts out of the reach of children.
Risk of poisioning	 Keep detergents and care products out of the reach of children.
Risk of explosion	 Caused by detergents containing solvents, e.g. stain remover/items of washing pretreated with solvent naphtha may result in an explosion after being loaded into the washing machine. Before hand thoroughly rinse items of washing by hand.
Risk of injury	 Washing machine door may become very hot. Caution when draining hot detergent solution. Do not climb on the washing machine. Do not lean on the open washing machine door. Do not reach into the drum in case it is still rotating.

Maintenance

Detergent-solution pump

- Set programme selector to \bigcirc **Off**, pull out the mains plug.
- 1. Take the drainage hose out of the holder. Remove sealing cap, allow detergent solution to flow out. Put the closing cap back on the hose.
- 2. Carefully unscrew the pump cover (residual water).
- **3.** Clean the interior, pump cover thread and pump housing (fan impeller in the detergent-solution pump must rotate).
- **4.** Reinsert and screw on pump cover. Handle is upright. Insert the drain hose into the holder.

Set programme selector to O Off, pull out the mains plug.

- 1. Loosen hose clip, carefully remove drainage hose (residual water).
- Clean drainage hose and siphon spigot.
- 3. Re-attach drainage hose and secure connection point with hose clip.

Filter in the water inlet hose Risk of electric shock!

Do not immerse Aqua-Stop safety device in water (contains electric valve).

Release water pressure in the supply hose:

- **1.** Turn off the tap!
- 2. Select any programme (except Spin ③/ 🖵 Empty).
- **3.** Select ♦ (**Start**/Pause). Leave programme for approx. 40 seconds.
- 4. Turn the programme selector to O Off. Pull out the mains plug.

Clean the filter:

5. Disconnect the hose from the water tap. Clean filter with small brush.

and/or for standard and Aqua-Secure models: Remove hose from the rear of the appliance Take out filter with pliers and clean.

6. Connect the hose and check for leaks.

🚹 Important information

Before using your washing machine for the first time

- Do not put any washing in the washing machine! Turn the tap on. Pour into dispenser
- approx. 1 litre water.
- Detergent (dosage according to manufacturer's instructions for light soiling and according to degree of water hardness).
 Set programme selector to **Easy-Care 60** °C and select (Start/Pause).
- At the end of the programme set the programme selector to O Off.

Protecting the washing and the machine

- When dosing all detergents, cleaning aids and cleaning agents, always follow the manufacturer's instructions.
- Empty pockets.
 - Remove metal parts (paper clips, etc.).
 - Wash delicates in the net/bag (tights, curtains, underwired bras).
 - Close zips, button up covers. Brush sand out of pockets and collars.
 - Remove curtain fittings or include in the net/bag.

Insert laundry

nsert large and small items of washing!

Do not jam items of washing between the washing machine door and rubber seal

Washing with different degrees of soiling Wash new items separately. Do not Prewash. Light If required, pretreat stains. Select C Eco⁺ (Intensive Wash) additional function. Load less washing. Select programme with Prewash. Heavy If required, pretreat stains, Select C Eco⁺ (Intensive Wash) additional function,

Soaking Load washing of the same colour.

Pour soaking agent/detergent into dispenser II according to the manufacturer's instructions. Set programme selector to 🗚 Cottons 30 °C and select 🚸 (Start/Pause). After approx. 10 minutes select 🕀 (Start/Pause) to stop the programme. After the required soaking time reselect () (Start/Pause) if the programme is to be continued or change the programme.

Starching

O

Washing should not be treated with fabric softener.

Liquid starch can be used in all wash programmes. Pour starch into the fabric softener dispenser 🏵 according to manufacturer's specifications (if required clean beforehand).

Dveina/Bleachina

Dye in household quantities only. Salt may attack stainless steel! Observe specifications of the dye manufacturer! Do not bleach washing in the washing machine!

• • • Moutdoor Wear

The laundry must not be treated with fabric softener.

Special detergents suitable for machine wash available in particular from sports shops. Dosage according to manufacturer's instructions. Dose special detergent for outdoor textiles in dispenser II. Set programme selector to \wedge **Outdoor**. Select temperature and \oplus (**Start**/Pause).

Emergency release e.g. if power failure occurs.

The programme continues running when the power supply is restored. If the washing is still to be removed, the door can be opened as described below:

Risk of scalding!

Detergent solution and washing may be hot. If required, leave to cool down, Do not reach into the drum in case it is still rotating. Do not open the door if you can still see water through the glass.

- 1. Set programme selector to O Off., pull out the mains plug.
- 2. Removing base strip \rightarrow see separate installation instructions.
- **3.** Drain the water. \rightarrow Page 10
- 4. Pull down emergency release with a tool and release. Door can then be opened.
- 5. Attaching base strip \rightarrow see separate installation instructions.

Programmes	ç	тах.	Type of washing 🝸 🚽 🥂 The Additional functions; information	Additonal functions; information
Ľt⊠ Cottons <	0°06 - ♣ 0°06 - ♣	7 kg *	Hard-wearing textiles, heat-resistant textiles made of cotton or linen	Continue (Intensive Wash), (Prewash), (Less Ironing), (Extra Rinse) (Extra Rinse)
© PowerWash 60'	J。09 - ₩,	5 kg	Hardwearing textiles made of cotton or blended fabrics	Time-controlled programme, short programme for normally soiled washing.
📥 Easy-Care	J。09 - ₩		Easy-Care textiles made of cotton, linen, synthetic fibres or blended fabrics	Control (Intensive Wash), U (Prewash), @ (Less Ironing), & (Extra Rinse)
තී Mix	桊 - 40 °C	3.5 kg *	kg * Textiles made of cotton or easy-care textiles	C Eco ⁺ (Intensive Wash), U, (Prewash), A (Less Ironing), A (Extra Rinse) Different types of washing can be washed together
ắ⁺ Easy-Care Plus	* 40 °C		Dark textiles made of cotton and dark easy-care textiles	C Eco ⁺ (Intensive Wash), U (Prewash), (Less Ironing), (Extra Rinse) Reduced rinse and final spin cycle
🕲 Shirts/ Business	3° 06 - ₩		Non-iron shirts made of cotton, linen, synthetics fibres or blended fabrics	C Eco ⁺ (Intensive Wash), U (Prewash), 些 (Extra Rinse) Short spin only, hang up dripping wet
P Delicate/Silk	券 - 40 °C		Delicate, washable textiles, e.g. made of silk, satin, synthetic fibres or blended fabrics	C Eco ⁺ (Intensive Wash), U, (Prewash), (Less Ironing), (Extra Rinse) No spin cycle between the rinse cycles
🔌 Outdoor	₩ - 40 °C	2 kg	Weather, sport and outdoor textiles also with climate protection membrane	C Eco ⁺ (Intensive Wash), 壆 (Less Ironing), ঊ (Extra Rinse) Reduced final spin at intervals
اthe Wool 🕲	券 - 40 °C		Hand or machine-washable wool or rich-wool textiles	Especially gentle wash programme to prevent shrinkage, longer programme pauses (textiles rest in wash liquor)
C Super 15'	券 - 40 °C		Easy-Care textiles made of cotton, linen, synthetic fibres or blended fabrics	Short programme approx. 15 minutes, suitable for lightly soiled washing
Additional programmes			Rinse ⊠,	Rinse ळ, Spin ©, ⊸Empty, © Low spin
i The programmes are time-controll. When washing at maximum load u Irrespective of the type of washing Programmes without Prewash – pr	s are time-coni t maximum los e type of wash nout Prewash	trolled fo ad using ing, Å	The programmes are time-controlled for lightly solied textiles. If textiles are heavily solied, reduce the load or select additional function, e.g. < When washing at maximum load using programmes marked with *, always select	ed for lightly solied textiles. OVERVIEW OF programmes \rightarrow Observe table of consumption values on Page 8 and instructions on Page 6!

Safety instructions

Read and follow the operating and installation instructions and all other information enclosed with the washing machine.

- Retain documents for subsequent use.

Risk of electric shock	 Never pull out the mains plug by tugging the power cord! Insert/pull out the mains plug with dry hands only.
Danger to life	 On redundant appliances: Pull out the mains plug! Sever the power cord and discard together with the plug. Destroy the lock on the washing-machine door. This will prevent children from locking themselves in and suffocating.
Risk of suffocation	 Keep packaging, plastic film and packaging parts out of the reach of children.
Risk of poisioning	 Keep detergents and care products out of the reach of children.
Risk of explosion	 Caused by detergents containing solvents, e.g. stain remover/items of washing pretreated with solvent naphtha may result in an explosion after being loaded into the washing machine. Before hand thoroughly rinse items of washing by hand.
Risk of injury	 Washing machine door may become very hot. Caution when draining hot detergent solution. Do not climb on the washing machine. Do not lean on the open washing machine door.

Do not reach into the drum in case it is still rotating.

Consumption values

Programme	Additonal function	Load	Current***	Water***	Programme duration***
හි Cottons 20 °C	-	7 kg	0,21 kWh	771	1¼ h
හි Cottons 40 °C*	⊂ Eco⁺	7 kg	0,78 kWh	77	21⁄4 h
හි Cottons 60 °C	-	7 kg	1,30 kWh	771	1¾ h
හි Cottons 90 °C	-	7 kg	2,26 kWh	901	2 h
	⊂ Eco⁺	3,5 kg	0,58 kWh	57 I	11⁄4 h
P Delicate/Silk 30 °C	-	2 kg	0,17 kWh	301	3⁄4 h
继 Wool 30 °C	-	2 kg	0,20 kWh	40 I	3∕4 h
* 0				2	

Programme setting for test according to currently valid European standard 60456.

Information about comparability tests: To test the test programmes, wash indicated load, with C Eco⁺ (Intensive Wash) additional function and at maximum selectable spin speed.

Programme	Additonal function	Load	Annual energy consumption	Annual water consumption
Cottons 40/60 °C	C Eco+ **	7/3.5 kg	220 kWh	110001
++ D			11 11 00 to (00 (E11 11)	11 (15.00)

Programme setting for testing and energy labelling according to directive 2010/30/EU with cold water (15 °C).
 The values may deviate from the stated values depending on water pressure and hardness, room temperature, type and amount of laundry, detergents used, fluctuations in the mains voltage and selected additional functions.

Insert for liquid detergent depending on model

Position insert for dosing liquid detergent:

- Completely remove detergent drawer. \rightarrow Page 10
- Push insert forwards.

Do not use insert (push upwards):

- For gel-like detergents and washing powders.
- For programmes with 🕁 (Prewash) or 🕒 (Finish in) option.

pre

Risk of electric shock! Pull out the mains plug! Risk of explosion! No solvents!

Machine housing, control panel

- Remove detergent residue immediately.
- Wipe with a soft, damp cloth.
- Do not clean the appliance with a water jet.

Clean the detergent drawer ...

- ... if it contains detergent or fabric softener residue.
- 1. Pull out, depress insert, take out drawer all the way.
- 2. Take out insert: using your finger, press insert upwards.
- 3. Clean detergent dispenser and insert with water and a brush and dry.
- 4. Attach insert and lock into position (push cylinder onto guide pin).
- 5. Slide in the detergent dispenser.

Leave detergent drawer open so that residual water can evaporate.

Drum

Descaling

Care

Leave washing machine door open so that the drum can dry out. Use chlorine-free cleaning agent, not steel wool.

No washing in the machine!

Not required if detergent dosed correctly. However, if this does occur, follow the instructions of the descaling agent manufacturer. Suitable descalers can be purchased on our website or from customer service.

Information on the display panel depending on model

F: 15	Close the washing machine door properly; washing may be caught.
F: 17, 29	Turn on tap fully, supply hose kinked/jammed; clean filter \rightarrow Page 10, water pressure too low.
F: 18	Drain pump blocked; clean drain pump. \rightarrow Page 10 Drainage hose/outlet pipe blocked; clean drainage hose on the siphon. \rightarrow Page 10
F:23	Water in the base pan, appliance leaking. Call customer service!
F: 42, 43, 44	Motor fault. Call customer service. \rightarrow Installation instructions
Other displays	Switch off appliance, wait 5 seconds and switch on again. If the display is indicated again, call customer service. \rightarrow Installation instructions

Maintenance

___ Detergent-solution pump

- \Rightarrow Set programme selector to \bigcirc **Off**, pull out the mains plug.
- 1. Take the drainage hose out of the holder. Remove sealing cap, allow detergent solution to flow out. Put the closing cap back on the hose.
- 2. Carefully unscrew the pump cover (residual water).
- **3.** Clean the interior, pump cover thread and pump housing (fan impeller in the detergent-solution pump must rotate).
- 4. Reinsert and screw on pump cover. Handle is upright. Insert the drain hose into the holder.

To prevent unused detergent from flowing into the outlet during the next wash: Pour 1 litre of water into dispenser **II** and start the + **Empty** programme.

Drainage hose on the siphon

- Set programme selector to O **Off**, pull out the mains plug.
- 1. Loosen hose clip, carefully remove drainage hose (residual water).
- 2. Clean drainage hose and siphon spigot.
- 3. Re-attach drainage hose and secure connection point with hose clip.

Filter in the water inlet hose

Risk of electric shock!

Do not immerse Aqua-Stop safety device in water (contains electric valve).

Release water pressure in the supply hose:

- 1. Turn off the tap!
- 2. Select any programme (except Spin ③/ 🖵 Empty).
- 3. Select ♦ (Start/Pause). Leave programme for approx. 40 seconds.
- 4. Turn the programme selector to O Off. Pull out the mains plug.

Clean the filter:

5. Disconnect the hose from the water tap. Clean filter with small brush.

and/or for standard and Aqua-Secure models: Remove hose from the rear of the appliance. Take out filter with pliers and clean.

6. Connect the hose and check for leaks.

Risk of scalding! - Allow detergent solution to cool down! - Turn off the tap!

What to do if ...

	Water is running out.	 Correctly attach/replace drainage hose. Tighten screw-fitting on the supply hose. 		
•	Water not flowing in. Detergent not washed in.	 → (Start/Pause) not selected? Tap not open? Filter blocked? Clean the filter. → Page 10 Supply hose kinked or jammed? 		
	Washing-machine door cannot be opened.	 Safety function active. Stop programme? → Page 4 		
	Programme does not start.	 - ◆ (Start/Pause) or () (Finish in) time selected? - Door closed? 		
	Detergent solution is not drained.	 — □ (Rinse stop = without final spin) selected? → Page 3, 4 Clean the drain pump. → Page 10 Clean outlet pipe and/or drainage hose. 		
	Water not visible in the drum.	- Not a fault - water below the visible area.		
•	Spin result not satisfactory. Washing wet/too damp.	 Not a fault – unbalanced load detection system has stopped the spin cycle, washing unevenly distributed. Distribute small and large items of washing in the drum. — (Less Ironing) selected? → Page 5 Too low speed selected? → Page 5 		
	The programme duration changes during the wash cycle.	 Not a fault – the programme sequence is optimised for the particular wash process. This may result in changes to the programme duration in the display field. 		
	Spin cycle actuated several times.	 Not a fault – unbalanced load detection system adjusts imbalance. 		
	Residual water in the dispenser for care product &.	 Not a fault – effect of the care product not impaired. If required, clean insert. → Page 9 		
	Odour formation in the washing machine.	- Run 论 及 Cottons 90 °C programme without washing. Use standard detergent.		
	Foam is coming out of the detergent drawer.	 Too much detergent used? Mix 1 tablespoon of fabric softener with ½ litre of water and pour into dispenser II (not for outdoor, sports and down-filled textiles!). Reduce detergent dosage for the next wash cycle. 		
	Loud noise formation, vibrations and "Wandering" during spin cycle.	 Appliance feet fixed? Secure appliance feet. → Installation instructions Transportation protection devices removed? Remove transportation protection devices. → Installation instructions 		
	Noises during spin and drain cycles.	- Clean the drain pump. \rightarrow Page 10		
	Display panel/indicator lights do not function while the appliance is running.	 Power failure? Fuse tripped? Switch on/replace fuse. If the fault occurs repeatedly, call customer service. 		
	The programme takes longer than usual.	 Not a fault – unbalanced load detection system adjusts imbalance by repeatedly distributing the washing. Not a fault – foam detection system active – a rinse cycle is switched on. 		
	Detergent residue on the washing.	 Occasionally phosphate-free detergents contain water-insoluble residue. Select Rinse or brush the laundry after washing. 		
	In the pause status	 Water level too high. Washing cannot be reloaded. Immediately close washing machine door. Select ◊ (Start/Pause) to continue the programme. 		
	If a fault cannot be rectified (switching the machine on and off) or a repair is required:			

Set programme selector to ○ Off and pull out the mains plug.
 Turn off the tap and call customer service. → Installation instructions
