# Your home, all in one app.

Wi-Fi enabled Home Appliances can already be operated through the Home Connect App although now this technology also connects your appliances with the services of different partners – turning your house into a connected home. Discover more possibilities to lead an innovative lifestyle and let the future move into your home.

To find out more visit [siemens-home.bsh-group.com/uk/home-connect](http://siemens-home.bsh-group.com/uk/home-connect)

One interface for  
all appliances

## Ovens and Coffee Centre

- Recipe World offers you a wide range of delicious recipes – choose your favourite and send the ideal settings directly to the oven.
- Operate the oven intuitively from wherever you are, for instance to preheat it while you are on your way home.
- The coffeeWorld in your Home Connect App provides an additional variety of delicious speciality coffees from around the world.
- The coffeePlaylist enables you to transfer the beverage wishes of all your guests remotely to the appliance at once – the coffee centre will then prepare one after another.

Models shown: **HN678GES6B** single oven, **CT636LES6** coffee centre, **BI630CNS1B** warming drawer

## Hobs and Hoods

- Remote monitoring gives you an overview of your appliance's current status – from wherever you are.
- Intuitively change and select settings on your appliances via the Home Connect App.
- Push notifications inform you about your appliances such as when the filters need replacing.
- Access 256 colours to set the ambient lighting of selected hoods with emotionLight Pro.

Models shown: **LC97FVW60B** hood, **EX975KXW1E** hob

## Dishwashers

- The Easy start dishwashing function on the Home Connect App allows you to select the kind of dishes you'd like to clean and choose the right dishwashing programme to suit the load.
- Remote controlling lets you select options, and start programmes intuitively, wherever you are.
- With the Tab Counter you can get Push Notifications straight to your mobile, via the Home Connect App, whenever the supply of dishwasher tabs needs to be refilled.

Model shown: **SN678D06TG** built-in dishwasher

## Fridge Freezers

- Cameras in the fridge let you check the contents of your fridge from wherever you are, whenever you want\*.
- Remote controlling allows you to intuitively select and activate the ideal setting for your refrigerator.

Model shown: **KG36NHI32** fridge freezer  
\*Applies to freestanding fridge freezers only

## Washing Machines and Washer Dryers

- The Easy start function on your washing machine, using the Home Connect App, allows you to answer a few simple questions and then automatically suggests the correct programme for your load.
- Remote monitoring provides you with an easy overview of your appliance's current status – from wherever you are.
- Push Notifications inform you when the cycle is finished and, for our i-Dos model, whenever the fill status of detergent or fabric softener is getting low.

Model shown: **WM4UH640GB** freestanding avantgarde washing machine **WT7XH940GB** freestanding avantgarde tumble dryer.

**Is an appliance Wi-Fi ready?**  
To see which of our appliances come Wi-Fi-enabled so that you can use Home Connect, look out for the **Wi-Fi ready** icon next to the product description.

Home Connect

To find out about about the exciting possibilities Siemens Home Appliances and Home Connect offers visit: [siemens-home.bsh-group.com/uk/home-connect](http://siemens-home.bsh-group.com/uk/home-connect)

Home Connect is a service offered by Home Connect GmbH. To use Home Connect, you have to create a user account and register with Home Connect GmbH.

# Laundry. Welcome to a range designed around you.

Smarter thinking, smarter clothes. Siemens Washing Machines, Washer Dryers and Tumble Dryers deliver outstanding results each and every time.

Sleek, streamlined, and stylish, Siemens washing machines and washer dryers not only look great in your home, they perform perfectly too. With state-of-the-art technology Siemens washing machines are extremely energy efficient, easy to use, and most importantly designed to save you time and money. All Siemens tumble dryers feature sensor drying, which provides uniform drying results, and makes over-drying a thing of the past. The Siemens laundry range has been developed to make laundry easier and less of a chore.

Siemens washer dryers combine the innovative functions of the modern washing machines and dryers in one appliance to save effort, time and space. At the touch of a button, with their large display and clear operation, you can conveniently control the variety of cycles from both worlds: washing and drying.

Models shown: WM14YH89GB washing machine  
and WT4HY791GB tumble dryer

## The sensoFresh programme: Experience effective odour removal.

Beautiful memories are too precious to be compromised by bad smells.

You can't prevent your clothes from picking up odours when you're enjoying the moment – but that's no problem for sensoFresh.

The revolutionary sensoFresh System provides the ideal solution for odour removal on almost any type of fabric – without water or detergent. Together, the use of active oxygen and efficient sensor technology provide a highly convenient way to eliminate odours, delivering pleasantly fresh clothes and outstanding hygiene even on delicate or dry-clean only fabrics.

Prepare yourself for a new level of convenience.

Effective odour removal with active oxygen: sensoFresh programme.

Get rid of odours such as kitchen smells without the use of water or detergent using the sensoFresh programme.

sensoFresh provides odour elimination quickly, even for sensitive and non-washable textiles. Active oxygen neutralises smells in just 30 to 45 minutes, depending on the intensity of the odour.

# Laundry feature guide.

## Reference key:

Model does have this feature

Model does not have this feature

The features included in this feature guide are an overview only. Please ensure that you check the product detail for the exact features of each model.

\*For individual product energy efficiency ratings please check the icons next to the product specification

## Key functionality – Washing Machines

Energy

**Energy efficient class A+++\*** All Siemens washing machines automatically adapt the wash time and energy consumption to the amount of laundry in the machine.

Auto programme

**Auto programme** Whether normal or delicate items – the automatic programmes adjust the detergent dose and the entire wash cycle to the needs of your laundry to optimum effect.

i-Dos

**i-Dos** Determines how much detergent is needed for each wash, based on the weight of the laundry and programme used.

sensoFresh programme

**sensoFresh programme** Get rid of odours such as cigarette smoke or kitchen smells – the sensoFresh programme provides odour elimination in short time, even for sensitive and non-washable textiles. Active oxygen neutralises smells in just 30 to 45 minutes, depending on the intensity of the odour.

WiFi ready

**Wi-Fi ready** With Wi-Fi enabled Siemens home appliances and Home Connect, you can manage your home appliances from wherever you are and discover more possibilities to make your life easier.

Capacity

**Capacity** Capacity of laundry your machine can hold (kg).

iQdrive

**iQdrive** The frictionless design of the iQdrive motor means no wear and tear, resulting in a quieter machine with an increased life span.

5 Year Warranty

**5 Year Warranty** A 5 year warranty is available on selected freestanding models, where indicated, which covers parts, labour and call-out charges.

iSensoric technology provides laundry care of the highest standard.

Delicate satin, sportswear, outdoor jackets, white shirts – every wardrobe is full of clothes that vary in fabric and colour. And they all need different types of care.

Supported by information collected from the sensors, the iSensoric Control Unit can identify load volume, distinguish between different types of fabrics, spot excessive degrees of soiling and more – to handle each and every load individually.

This technology opens up endless possibilities. Take the i-Dos feature, which calculates the right amount of detergent for any load, or sensoFresh, the ideal solution for odour removal on almost any type of fabric – without water or detergent, helping to provide the perfect washing result.

Models shown: **WM14YH89GB** washing machine and **WT4HY791GB** tumble dryer

## Washer Dryers

Energy

**Energy efficient class A\*** All Siemens washer dryers are rated A for energy efficiency.

Washing Capacity

**Washing capacity** The large washing capacity ensures you can wash clothes with fewer loads.

Drying Capacity

**Drying capacity** The drying capacity ensures you can dry clothes effectively.

airCondensation technology

**airCondensation** uses no additional water in the drying process, making it an extremely energy-efficient appliance. This translates into cheaper energy bills, saving resources.

iQdrive

**iQdrive** The frictionless design of the iQdrive motor means no wear and tear, resulting in a quieter machine with an increased life span.

varioPerfect

**varioPerfect** The choice between speedPerfect and ecoPerfect; varioPerfect allows the setting of certain washes to be changed determined on what is most important to the user; time or energy.

## Tumble Dryers

Energy

**Energy efficient class A++\*** All Siemens heat pump tumble dryers are at least rated A++ for energy efficiency.

WiFi ready

**Wi-Fi ready** With Wi-Fi enabled Siemens home appliances and Home Connect, you can manage your home appliances from wherever you are and discover more possibilities to make your life easier.

Capacity

**Capacity** Capacity of laundry your machine can hold (kg).

Drum interior light

**Drum interior light** To give you optimum visibility when loading and unloading your laundry.

Heat pump

**Heat pump** Heat pump dryers are condensation dryers equipped with a special heat pump technology. In contrast to classic condensation dryers, here energy in the form of heat is not discharged into the environment; instead it is retained for the drying process.

iQdrive

**iQdrive** The frictionless design of the iQdrive motor means no wear and tear, resulting in a quieter machine with an increased life span.

selfCleaning condenser

**selfCleaning condenser** The automatic, selfCleaning condenser system uses water generated during the drying cycle to clean the heat exchanger three to four times during every cycle.

## Other product features

### antiVibration

Having antiVibration technology built-in to the design of the machine makes the appliance more stable, which in turn makes it quieter.

### autoStain removal system (ASR)

Takes the effort out of cleaning tough stains by automatically optimising the wash settings to remove individual stains from your laundry and eradicating the need to pre-wash stained clothes.

### autoLoad Plus

Ensures that the correct amount of detergent is used depending on the weight of washing and the maximum weight allowance for certain programmes.

### Consumption value indicator

See which programmes use less energy and water with the consumption value indicator.

### Drum clean

An automatic alert after 20 washes to run the Drum Clean programme on a 90°C or 60°C wash keeps the appliance clean and odour free.

### Drum interior light

To give you optimum visibility when loading and unloading your laundry.

### Foam detection system

Detects if too much foam has been created during a wash, if so, it will adjust the drum movement and add an extra rinse cycle if necessary.

5 Year Warranty

**5 Year Warranty** A 5 year warranty is available on selected freestanding models, where indicated, which covers parts, labour and call-out charges.

### hydroSafe

Ensures you never have to deal with the inconvenience of a leaking connection. Protects against water damage.

### Less Ironing option

At the touch of a button 'Less Ironing' can be added to a selected programme, ensuring the machine gently and evenly drains the water and reduces the spin speed, helping to keep clothes crease free.

### rapid15

Rinses, washes and spins lightly soiled clothing in just 15 minutes, designed for those with hectic lives this wash cycle will clean clothes when you're in a hurry.

### rapid40

Leaving clothes ready to iron in only 40 minutes thanks to the optimised temperature control and customised cool-down phase of the rapid40 programme.

### reload

The reload function allows the machine to be paused and the door opened at the next safe opportunity. It's the perfect solution when an extra item needs to be added to the load.

### Textile Guard

This programme applies a waterproof treatment to breathable fabrics, prolonging the life of high-quality functional clothing like winter jackets, fleeces and ski suits.

2 Year Warranty

**2 Year Warranty** For complete peace of mind, all Siemens appliances come with a 2 year warranty as standard.

# Siemens avantgarde:

## Where design meets innovation.

### Discover our most premium laundry care range.

Discover laundry care appliances that keep up with your lifestyle. With a cutting-edge appearance Siemens avantgarde adds a touch of brilliance to your home – even for everyday tasks like washing and drying laundry. Enjoy outstanding design and exceptional convenience thanks to the inclined ergonomic control panel, intuitive iSelect TFT Display, and an overall outstanding design.

#### Home connect

With WiFi enabled appliances you can easily control your avantgarde appliances directly from the Home Connect app using your mobile or tablet device. Home Connect allows you to use features such as the Easy start function which helps you to select the best programme for your load based on answering a few simple questions. Home Connect also allows you to track the current status of your appliance and the app can also send push notifications to your phone so you know when the laundry cycle is finished.

#### iSelect TFT Display

The iSelect TFT Display is intuitive with a smartphone-like user interface, allowing you to select programmes by scrolling through a digital menu. This large clear screen is featured on models WM14U940GB (washing machine) and WT7XH940GB (tumble dryer) to provide clear and precise selection options. These two models with their stand out displays coordinate together beautifully. The new iSelect TFT Display panel helps aid the process of choosing programmes through clear legibility and a user friendly interface.

#### Get in touch with every feature: multiTouch LED display

The multiTouch LED display featured on the WM4UH640GB (washing machine) allows you to operate every feature of the washing machine and dryer intuitively, without having to press any buttons. What's more, you can receive precise visual and acoustic feedback with different LEDs and sounds.

#### Drying without obstacles: selfCleaning condenser

selfCleaning condenser prevents the dryer from becoming clogged with lint or fluff. The system cleans out the affected areas several times during the drying programme to keep the dryer's performance high and its energy consumption low.

#### Your personal washing and drying programme: myFavourite

With the memory function myFavourite, you can start your favourite programme with one touch on the multiTouch LED display. myFavourite remembers your desired combination of programme and possible options so you don't have to set it up again for the next wash or drying cycle. Experience more.

#### Just add laundry: i-Dos

Saving you time, the i-Dos system automatically determines the exact amount of liquid detergent needed for each of your laundry cycles, depending on the weight of the load and what programme is used - for perfectly clean laundry with minimal use of resources.

#### Do the laundry at your own speed: myTime

Whether you're in a rush or have plenty of time, you can choose how long your washing or drying takes with myTime. Exclusive to avantgarde, myTime allows you to choose to run the programme from between 20 to 60 minutes, you decide. Now you can fit the laundry into your schedule without compromise.

# avantgarde washing machines and tumble dryer

Saving you time, the i-Dos system automatically determines the exact amount of liquid detergent needed for each of your laundry cycles, depending on the weight of the load and what programme is used – for perfectly clean laundry with minimal use of resources.

- autoStain removal system with 16 stain options
- varioPerfect – change certain washes depending on what is important to you; time or energy
- clearText TFT Display
- Time delay 24 hours and time remaining indicator
- Dimensions (HxWxD): 84.8 x 59.8 x 59cm

## Just add laundry!

The i-Dos system automatically determines how much detergent is needed for each of your wash loads, based on the weight of the laundry and programme used.

Saving you time, the i-Dos washing machine allows you to simply place your clothes in the drum, select your desired programme and relax. The i-Dos system uses a combination of all the sensors to automatically determine the exact amount of liquid detergent needed for each of your laundry cycles, depending on the weight of the load and what programme is used. With the built-in drawer conveniently holding enough liquid detergent for around 20 washes, not only does this mean you don't have to measure and fill the container for every wash, but as the correct amount of liquid detergent is used every time, your clothes will receive the perfect wash whilst saving you precious time and around 11 litres in detergent per year.\* The result, hassle-free laundry and perfectly clean clothes!

\*Oko-Institute, Germany, 2007

1. Set rotary selector to an "Automatic" programme

2. Load your washing and close the door

3. Press start and sit back

## Fast and efficient machines with added peace of mind.

5 Year Warranty

For complete peace of mind, all Siemens appliances come with a 2 year warranty as standard. A 5 year warranty is available on selected freestanding models, where indicated, which covers parts, labour and call-out charges.

A+++  
Energy

Our entire range boast A+++ for energy. Siemens washing machines are extremely energy efficient, using as little as 0.13kWh/kg, they are rated at the very top of the European Energy Efficiency Rating system. All Siemens washing machines automatically adapt the wash time and the energy consumption to the amount of laundry in the machine.

iQdrive

The iQdrive is the most economical, fastest, quietest and durable motor we have ever built, hence why it comes with a 10-year motor warranty and a 5-year parts and labour warranty. This specially designed motor at the heart of our machines is designed to last longer; meaning you'll never be without clean laundry, as well as being extremely quiet, meaning you can enjoy a conversation without having to compete with your washing machine.

## Start cleaning the laundry. While you dirty your clothes.

WiFi ready

Siemens Wi-Fi enabled washing machines with Home Connect can't take the loading and unloading away, but they will add exciting features to give you more flexibility and choice when doing your laundry.

### Easy Start

The Easy Start feature in your Home Connect App helps you to find the best programme. Just answer a few simple questions, for example about the fabric and colour, and remotely send the recommended settings to your appliance. Go from finding the ideal programme to starting the laundry in just a few seconds.

### Remote monitoring

A washing machine you can monitor from wherever you are provides a lot of convenience. With the Home Connect App you always know if the laundry is ready or not, and you don't have to check it several times just to see that it's still running.

### Remote Control

Let your laundry adjust to your timetable. With the Home Connect App you can easily select options and start your washing machine whenever you want, from wherever you are – to have the laundry ready exactly when you need it.

### Push notifications

Our i-Dos washing machine automatically adjusts the dosing of detergent and fabric softener in order to deliver optimal results. And now it is getting even more advanced: you can receive Push Notifications whenever the compartments need to be refilled, or your laundry is ready.

# Washing machines

## Tough on stains, gentle on your washing.

Removing tough stains without the need for specialist products or pre-washing.

Keeping your life uncluttered, our specially designed autoStain removal system (ASR) takes the effort out of cleaning tough stains. Simply load your clothes in the machine, choose a wash programme, select one of the 16 stain treatments and let ASR do the rest. This saves you time and removes the need for specialist products or pre-washing.

It happens to the best of us, a stain on your favourite dress or best shirt is part of life. However, we have a solution that is going to save you time and effort when it comes to removing stubborn stains, autoStain system (ASR available on models WM14YH89GB, WM16YH79GB and WM14YH79GB. 4 stain options available on models WM16W5H0GB and WM14W5H0GB). So next time you need to remove last night's wine from your shirt sleeve or a lipstick smudge on your favourite dress, look no further than your Siemens washing machine.

Whether it is red wine or coffee, dirt or grass, blood or even cosmetics, our autoStain removal system (ASR), automatically optimises the wash settings to remove individual stains from your laundry. The ASR system eradicates the need to pre-wash stained clothes and the use of special detergents, tackling up to 16 different types of stain. The ASR system tailors the wash according to the nature of the stain, creating the perfect balance between the mechanical drum action, water level, wash time and temperature. Saving you time and money on buying specialist products, those unforeseen accidents need not ruin your clothes anymore.

Stain selection is made easy with the large clearText TFT Display screen.

## Siemens washing machines take the hassle out of washing.

Our machines take full advantage of the latest technology and innovation, designed to make laundry less of a chore.

**Meets your highest hygiene standards: The drum clean programme.**  
The programme for cleaning the washing machine's drum prevents the formation of odours inside the machine.

**Hygienically clean laundry even at low temperatures: The hygiene programme.**  
The hygiene programme is particularly suitable for delicate textiles that cannot be washed in a high-temperature wash programme.

**rapid15**  
What can you do in an hour? Add the laundry to your list. Need a shirt cleaning an hour before you're due to leave the house? Don't panic! The rapid15 programme will save the day. Designed for those of us with hectic lives this wash cycle will clean your clothes when you are in a hurry. rapid15 washes, rinses and spins laundry in just 15 minutes. Combined with the speedy 40 minute drying programme of our tumble dryers, rapid40 will have your favourite shirt ready by the evening.

**varioPerfect**  
Designed to work around your busy schedule. Giving you the choice, varioPerfect allows the setting of certain washes to be changed determined on what is most important to you, time or energy. Decreasing a washing machines cycle time by up to 65%\*. speedPerfect is ideal for getting through your laundry quickly without compromising on quality or cleanliness, whereas ecoPerfect lengthens the time of a cycle by reducing the machines energy consumption by up to 50%\*\*.

\*Cottons 40°C: Standard programme compared with speedPerfect option.  
\*\*EU label standard cottons 60°C programme with ecoPerfect option.

# Washer dryers

## A breath of fresh air.

There are some things only a washer dryer can do. Being kinder to the environment with every wash, our energy-efficient appliances use no additional water during the drying process.

With state-of-the-art technology built into our appliances Siemens have some of the most energy efficient washer dryers on the market. The airCondensation systems in our washer dryers uses no extra water during the drying process, making it an extremely resource efficient appliance. Using as little as 4.76 kWh of energy and the minimum water to wash and dry a full load of laundry the appliance earns itself an ultra-efficient rating of A.

From dirty to perfectly clean and dry, effortlessly the WD14H422GB can wash and dry up to 4kg of laundry non-stop in a single operation. That's the equivalent of 7 pairs of trousers or 18 shirts, carefully and perfectly washed and dried. Load your wash into the drum, switch on the washer dryer and relax. When it's done remove the clean or cupboard-dry laundry – nothing could be easier, more convenient, whilst also saving you space in your kitchen.

### iQ500 WD14U520GB White 1500rpm spin speed

Washer dryer

- Maximum spin speed: 1500rpm
- Noise level washing: 47dB (A) re 1pW
- Noise level spinning: 71dB (A) re 1pW
- 14 special programmes: myTime, towels, mixed fabrics, textile guard re-proofing, rapid15 minute quick wash, wash & dry 60, drum clean with reminder, refresh, hygiene, handwash/wool, delicates/silk
- Touch control buttons: start/reload, time delay, spin speed selection, temperature selection, ecoPerfect, speedPerfect, wash & dry, prewash, extra rinse, less ironing, night wash, myFavourite, child lock, night dry, dry only, drying time selection
- waterPerfect Plus: water management system
- autoDry
- 24 hours time delay and time remaining indicator
- multiTouch LED display
- Dimensions (HxWxD): 84.8 x 59.8 x 62cm

**New**

- A** Energy
- 10 kg Washing Capacity
- 6 kg Drying Capacity
- air Condensation technology
- iQdrive
- varioPerfect
- 2 Year Warranty

# Tumble dryers

Tumble dryers that maintain energy efficiency for life.

### High-performance and highly-efficient

Let yourself be fascinated by the state-of-the-art technology of Siemens heat pump dryers. Heat pump dryers are condensation dryers equipped with a special heat pump technology. In contrast to classic condensation dryers, here energy in the form of heat is not discharged into the environment; instead it is retained for the drying process. This is how Siemens heat pump dryers achieve impressive energy values and consume significantly less energy than condensation dryers.

### selfCleaning condenser

The absolute highlight of the heat pump dryers is the automatic self-cleaning of the condenser. It is integrated into many Siemens appliances and cleans the condenser automatically – sensor-controlled and intensively during each drying cycle. The result is a continually lint-free condenser that keeps energy consumption constantly low at all times.

Siemens heat pump dryers can also be set up – like all condensation dryers – flexibly anywhere since the condensed water is collected in a separate container integrated into the appliance.

A maintenance free machine you can count on for years to come. Unlike other dryers, our tumble dryers (WT4HY791GB, WT47W591GB, WT45M231GB) are built with an automatic selfCleaning condenser system, that uses water, collected during the drying cycle, to clean the heat exchanger three to four times during every cycle. Meaning you no longer have to remove and rinse the component after every cycle, as the machine does it for you.

If the heat exchanger is not cleaned regularly to remove this build-up, a machine's energy consumption rate quickly rises and its energy rating can drop from A to B, C and lower. By automatically selfCleaning several times during a cycle our Siemens condenser dryer maintains its A++ energy rating for life. With the selfCleaning condenser system you get a maintenance free machine that maintains peak efficiency and lower energy bills.

Our Wi-Fi enabled iQ700 tumble dryer conveys an elegant impression of absolute quality and intelligent innovation.

iSensonic heat-pump dryer with Home Connect: selfCleaning condenser and easy use from wherever you are via the Home Connect App.

Siemens innovation for complete laundry care.

**Sensor drying**  
All Siemens tumble dryers feature sensor drying, which provides uniform drying results, and makes over-drying a thing of the past. Sensors in the drum continually monitor the residual moisture in the laundry. They detect when the load has reached the selected drying level, and move the programme to the final cool-down period.

So your laundry is afforded the utmost protection, while neither energy nor your time is wasted.

**The rapid40 drying programme**  
With this programme, your washing will be perfectly dry in only 40 minutes, thanks to optimised temperature control and a customised cool-down phase.

**A lot less ironing**  
The Less Ironing option extends the anti-crease phase period at the end of the cycle to up to 120 minutes. The gentle tumbling motion of the softDry drum system leads to fewer creases in your laundry – so you can spend less time ironing.

**When space is an issue – stack**  
When you're short on space, a Siemens stacking kit provides the answer. It's an ergonomic solution too, because the tumble dryer is mounted at a convenient height for loading and unloading. Choose either the basic kit, or the version that includes a pull-out shelf for putting the laundry on.

# Dishwashers. Extra innovations for extra shine.

As you'd expect, Siemens dishwashers take full advantage of the latest technologies.

Designed to fit in around your busy lifestyle our dishwashers feature efficient, time saving and environmentally conscious programmes that are going to make your dishes shine. With sleek and stylish design, both inside and out, Siemens dishwashers are designed to complement your home.

Model shown: SN278I36TE dishwasher

Model shown: SN278136TE 60cm dishwasher

# Welcome to a new era of dishwashing with brilliantShine.

## Innovative features for inspiring results.

Our brilliantShine system combines our low temperature glass care programme with our advanced water softening technology and Zeolith® drying to ensure your glassware is taken care of. Straight from dishwasher to table, Shine&Dry gives you streak-free, shining glasses. Harnessing the power of Zeolith® at its best, the special drying cycle also works just as well on plastics, pots and pans. Saving you time, you no longer need to give glasses an extra towel dry to smarten them up, allowing you to spend more time with your guests.

That's what the new brilliantShine system with Zeolith® Drying is made for: creating the perfect conditions to start every day with a highlight, and sparkling glasses that you can be proud of.

Experience three perfectly synchronised, innovative features in just one washing cycle – for a brilliant shine directly out of your dishwasher. Refine your everyday life with limitless sparkling highlights.\*

There are three factors in dishwashing that influence the shine of your glassware: temperature, cycle time, and the use of detergent.

The new brilliantShine system offers three intelligent solutions that take care of these factors:

- Zeolith® drying uses a Zeolite mineral that absorbs moisture and converts it into a gentle heat
- The Shine&Dry option swills all residues of detergent with extra rinsing water, resulting in streak free, shining glassware
- The Glass 40°C programme ensures that your glassware is not exposed to excessive temperatures or spray pressures, and keeps the cycle time shorter

\*Depending on the detergent, the properties of the glassware, and the way it is placed in the dishwasher, the cleaning and drying results may vary slightly.

# Dishwashers feature guide.

## Reference key:

Model does have  
this feature

Model does not  
have this feature

The features included in this feature guide are an overview only. Please ensure that you check the product detail for the exact features of each model.

\*For individual product energy efficiency ratings please check the icons next to the product specification

## Key functionality

**Energy efficiency class\*** All Siemens freestanding dishwashers are rated at least A++ for energy efficiency.

**Wi-Fi ready** With Wi-Fi-enabled Siemens home appliances and Home Connect, you can manage your home appliances from wherever you are and discover more possibilities to make your life easier.

**Automatic programme** Through autoProgramme and interaction with smart sensors, the iSensoric control unit operates the entire dishwashing process to deliver immaculate results in minimum time and with the most efficient use of energy.

**Noise** At just 42dB, you will barely hear our dishwashers running, leaving you to relax in peace. Perfect for open plan living.

**TFT Display** Siemens dishwashers with clearText TFT Display allow you to see programme information easily in high resolution with clear text and icons, making the use of your dishwasher even easier.

**varioDrawer Pro** By adding a third shelf for cutlery, varioDrawer Pro removes the need for a cutlery basket and creates more space.

**varioFlex Pro basket** Creating extra space for pots and pans by adjusting slats to suit different loads, the inside of the dishwasher is constantly adaptable.

**Water Consumption** Indicates the average water consumption per cycle of each dishwasher based on the Eco 50 programme using cold fill water.

**Zeolith®** is a naturally occurring mineral that converts moisture to heat. This heat produced naturally by the Zeolith® is used for the drying cycle. No additional energy is therefore required to heat up the contents of the dishwasher for the drying process.

## Other product features

### dosageAssist

Quickly and evenly dissolves dishwasher tablets throughout the entire machine, leaving no mess to clean at the end of the cycle.

### duoPower

Benefitting from 2 spray arms under the top basket as opposed to just one, duoPower ensures that dishes in all areas of the dishwasher receive the best possible clean. (Feature available on slimline models)

### Heat exchanger

Heat generated from the wash pre-heats water for later in the cycle, thereby saving energy.

### hydroSafe

Cuts off the water supply from the tap if a leak is detected, even if the dishwasher isn't in use. Precision protection for your kitchen.

### hydroSensor

Makes sure that the optimum temperature is used depending on how dirty the dishes are, meaning that dishes are perfectly clean the first time round.

### Hygiene Plus

The Hygiene Plus setting eradicates 99.9% of germs by super heating the final rinse. Ideal for chopping boards and food containers, Hygiene Plus helps to keep your family fit and healthy.

### loadSensor

By monitoring that the optimum amount of water is flowing through the dishwasher throughout the cycle, loadSensor helps to ensure that dishes are cleaned thoroughly.

### Machine Care

Designed for use with a dishwasher cleaning detergent, the Machine Care programme offers an easy way to give your dishwasher a deep clean.

iSensoric technology provides perfectly sparkling dishwashing results every time.

Doing the dishes is now easier than ever before with iSensoric. From soiled pots and pans to delicate plates – every item gets the right care and treatment. Thanks to interaction between intelligent software and innovative sensors, many Siemens dishwashers are able to control the entire washing and drying process and automatically adjust water consumption, water temperature and cycle time to each load.

For example, autoProgramme sensors give brilliant results at the push of a button. As soon as one of the auto programmes is activated, the aqua sensor automatically measures the cloudiness of the water to precisely adapt the amount of water needed for optimal cleaning. In interaction with other intelligent sensors, the iSensoric control unit steers the whole washing and drying process to deliver brilliant results every time.

Model shown: SN278I36TE dishwasher

## Other product features

### rackMatic™

Conveniently allows the user to raise and lower the height of the top basket to create more or less space, even when the dishwasher is loaded.

### Real-time clock

Thanks to the real-time clock display, it's now possible to set the exact time that you want your dishes to be ready by.

### Shine&Dry

Straight from dishwasher to table, Shine&Dry gives you streak-free shining glasses.

### varioSpeed Plus

Use the varioSpeed Plus button to run the dishwasher significantly faster without compromising on wash quality.

### Wine glass holder

This accessory cleans up to four long stemmed wine glasses safely and securely. The innovative lock mechanism ensures glasses are stable in the basket, yet with minimal contact areas to avoid any water pooling or streaks.

# Freestanding 60cm dishwashers

## Innovative technology for super clean glasses every time.

Great moments start with small details. Such as brilliantly dry and shiny glasses directly out of your dishwasher – without any special effort or additional polishing all whilst using minimal water and energy.

### Add an extra sparkle

Our brilliantShine system combines our low temperature glass care programme with our advanced water softening technology and Zeolith® drying to ensure your glassware is taken care of. Straight from dishwasher to table, Shine&Dry gives you streak-free, shining glasses. Harnessing the power of Zeolith® at its best, the special drying cycle also works just as well on plastics, pots and pans. Saving you time, you no longer need to give glasses an extra towel dry to smarten them up.

### Zeolith®

Using advanced drying technologies Siemens dishwashers keep energy consumption to a minimum. Zeolith®, a form of zeolite mineral has the astonishing ability to absorb moisture and convert it to heat.

What does this mean for you? The heat produced naturally by the Zeolith® is used for the drying cycle. No additional energy is therefore required to heat up the contents of your dishwasher for the drying process (as with a standard drying system). This results in perfect drying, with less energy usage than models without Zeolith® technology.

### A+++ Energy

The Zeolith® mineral is stored in the depths of the dishwasher; this regenerates itself and keeps working for the entire lifetime of the machine. Combine this with the economy 50°C programme to get brilliant results with minimal energy. Using the latest sensor technology, our dishwashers don't just save water, they also save energy. All Siemens dishwashers have an energy rating of at least A++, with our iQ500 and iQ700 Zeolith® models boasting a maximum efficiency A+++ rating.

### hydroDry

Protect your glasses from cracking with hydroDry. Heat generated during the wash cycle is used to pre-heat the rinsing water to stop glasses being put under stress.

## Stunning design and intelligent technology, our iQ700 dishwasher features the brilliantShine system with Zeolith® drying, giving you brilliantly dry and shiny glasses directly out of your dishwasher.

Keeping your energy consumption to a minimum, Siemens iQ700 dishwashers use Zeolith®, to create the heat needed for drying dishes. This combined with the high resolution clearText TFT colour display, varioSpeed Plus for faster washing, and the convenient varioDrawer Pro, gives you a dishwasher that is easy to use and designed to perform.

### iQ700 SN278136TE Stainless steel

600mm

Freestanding 60cm dishwasher

- 13 place settings
- 8 programmes: Intensive 70°C, Auto 45-65°C, Eco 50°C, Silence 50°C, Short 60°C, Glass 40°C, Quick 45°C, Pre-rinse
- 5 additional options: Remote Start, intensiveZone, varioSpeed Plus, Hygiene Plus, Shine&Dry
- Machine Care programme
- Time remaining indicator
- Dimensions (HxWxD): 84.5 x 60 x 60cm
- 5 year warranty
- Interior blue emotionLight

## Added extras designed to make life easier.

With cutting-edge technology, Siemens dishwashers give you more than just clean dishes. Functional and specialised programmes offer a targeted wash to suit your load.

### varioDrawer Pro

The varioDrawer Pro adds a third shelf for cutlery and removes the need for a cutlery basket, creating more space. Knives, forks and spoons are placed on their side, leaving them easier to remove when emptying the dishwasher. Convenient blue touchpoints also indicate all the adjustment options available, such as lowering the side sections to accommodate bulkier items like espresso cups and ladles. Perfect for the extra-large dinner party, you can fit more in, making the after dinner clean up quick and simple.

### varioFlex Pro basket system

The varioFlex Pro basket system is designed to hold larger plates and allows you to create extra space for pots and pans with ease. Blue touchpoints inside the baskets indicate all the adjustment options available at a glance. It's never been as easy to adjust the slats to suit each load, making the inside of your dishwasher constantly adaptable. varioFlex Pro baskets ensure your dishwasher fits in with your lifestyle, no matter how much it may change day after day. Enjoy fewer washes and more flexibility.

### Wi-Fi Home Connect

Connect your Wi-Fi ready dishwasher with the Home Connect App to easily select programmes and options to start your dishwasher from wherever you are, whenever you want. Thanks to this, you can have the dishes ready exactly when you need them. When the dishes are clean and dry, the Home Connect App sends you a push notification to let you know.

The Tab Counter also provides more convenience: simply let the Home Connect App know when you buy new dishwasher tablets and you can always monitor the amount of tablets you still have from wherever you are. If your supply is running low, the Home Connect App even sends you a push notification, reminding you to get some.

### clearText TFT Display with real-time clock

For those that lead busy lives, it's important to plan and manage your time effectively. Thanks to the real-time clock display, it's now possible to set the exact time that you want your dishes to be ready.

### iQ500 SN258106TG Stainless steel

# Freestanding slimline 45cm dishwasher

Slimline dishwashers. Small on stature, big on features.

The less space available, the more valuable that space becomes. The 45cm dishwasher from Siemens helps you use space efficiently, whilst offering the most innovative Siemens technology, advanced operating convenience and optimum performance.

### duoPower

Although the 45cm slimline series dishwasher may be small, it is still intelligent when it comes to powerful cleaning. Benefitting from 2 spray arms under the top basket as opposed to just one, duoPower ensures that your dishes receive the best possible clean, with 2 duoPower arms working doubly hard to reach every inch of the basket.

### Energy efficient

Siemens dishwashers are designed to thoroughly clean dishes, but quietly, whilst using the minimum of water and energy. Our 45cm slimline model also features the varioDrawer Pro cutlery tray, giving you nothing but outstanding results. With Siemens, dishes have nowhere to hide.

### Resource efficiency

Using only 9.5 litres of water to wash 10 standard place settings in one cycle, our iQ500 45cm slimline dishwasher is extremely resource efficient too.

duoPower spray arms work hard to reach every inch of the basket

When space is at a premium, our iQ500 slimline dishwasher conveys an elegant impression of absolute quality and intelligent innovation.

Experience the brilliance of optimally cleaned and dried dishes with our iQ500 slimline dishwasher. With innovative technologies and functions that also meet the highest demands for performance, convenience, and energy efficiency.

■ Yes, model has this feature. - Feature not available for this model.

<sup>1</sup> Based on 280 standard cleaning cycles using cold water fill, including consumption of the standby mode.  
<sup>2</sup> The consumption per cleaning cycle of the "Eco 50" programme using cold water fill.  
<sup>3</sup> Includes Machine Care programme where included.  
<sup>4</sup> We would recommend our dishwashers are connected to the mains water supply where possible. However, they may also be connected to an external water softener as long as the water softener produces softened water of less than 1.1 mmol/litre (7.0°e) and the water softener in the appliance is turned off. Please contact product advice for further information. Water pressure required: 0.5-10 Bar. Flow rate: 10 litres per minute.

Inlet valve connected directly to 3/4" screwed joint.

### Key to accessories

- SZ72010 - Inlet/outlet hose extension (2m)
- SZ73300 - Wine glass holder
- SZ73100 - Cutlery basket
- SZ73145 - Slimline cutlery basket

# Cooling. Super efficient, super stylish.

Elegant, functional and packed with technology, your new Siemens fridge freezer is going to become a talking point in your kitchen.

Whether you want an American-style fridge freezer that has the wow-factor, a freestanding appliance or a side by side option that is going to save you space, Siemens has a wide range of products to choose from. Our energy efficient appliances are packed with food preservation and flexible storage solutions that are designed to support your busy lifestyle. With a stylish design that fits into any modern home our high spec fridge freezers are no longer just a place to store your favourite foods.

# Fresh, fresher, hyperFresh.

Reduce food wastage and take control of what you eat and when with hyperFresh. By providing the ideal environment, the hyperFresh Technology storage system keeps your food fresh for as long as it needs to – and even longer – so you can enjoy your food whatever comes up in your life.

Feature shown: hyperFresh Premium control representation

## Experience intelligent cool.

### hyperFresh Plus. Fresh for up to twice as long.

The hyperFresh Plus drawer doesn't just store fruit and vegetables, it provides them with the right conditions to keep them fresh for up to twice as long. Whether it's fruit or vegetables, simply switch the control and the humidity will be adjusted for optimum storage of your food.

### hyperFresh. Enjoy freshness longer.

The hyperFresh drawer offers freshness for longer thanks to the rippled bottom which allows cool air to circulate around your fruit and vegetables easily. As a result, you can see the quality and feel the freshness.

### hyperFresh Premium. Fresh for up to three times longer.

Enjoy fresher food for up to three times longer thanks to hyperFresh Premium. Simply select the kind of fruit and vegetables you want to store with the new control and let the drawer regulate how much humidity your food receives. With the drawer, fish and meat can also be stored at the perfect temperature.

### hyperFresh 0°C drawers. Perfectly fresh for fish and meat: available in all hyperFresh models.

The two hyperFresh 0°C drawers are especially designed for the cooling needs of fish and meat. Keep them fresher in ideal conditions near 0°C for up to two times longer. The separate compartments also avoid unpleasant smells to transfer and both boxes can be easily pulled out with one hand to make room for other foods and drinks, cooling them down quicker and providing refreshing drinks sooner.

# Cooling feature guide.

**Reference key:**

	Model does have this feature		Model does not have this feature
---	------------------------------	---	----------------------------------

The features included in this feature guide are an overview only. Please ensure that you check the product detail for the exact features of each model.

\*For individual product energy efficiency ratings please check the icons next to the product specification

## Key functionality

The key functionality shown applies to all cooling products. Please note, each type of cooling product will have their own separate icons. Product types: American Fridge Freezers, Fridge Freezers, single door fridges and single door freezers.

**Energy efficient cooling\*** Nearly every cooling appliance in the new Siemens built-in range is up to 20% more energy efficient than its equivalent A-rated appliance.

**Wi-Fi ready** With Wi-Fi enabled Siemens home appliances and Home Connect, you can manage your home appliances from wherever you are and discover more possibilities to make your life easier.

**hyperFresh premium** The “dry” zone and “dewpoint” zone within these drawers determine how much humidity food receives. Storing foods at their optimum humidity can help them last up to 3 times as long. This creates less food wastage, meaning fewer trips to the supermarket and cutting down on food bills.

**hyperFresh plus** Be in control with the innovative humidity control, food can last twice as long in the specialist drawer. Not only does this keep in nutrients and minerals that help to create a delicious meal, but as food lasts for longer fewer trips to the supermarket are required – saving you time, effort and money.

**hyperFresh** Keep food fresh in this fruit and vegetable drawer with rippled bottom which allows cool air to circulate around your food easily.

**iceDispenser** These models are able to dispense ice when needed thanks to a plumbed water connection. Depending on model, ice is available as cubes or crushed.

**LED illumination** Integrated seamlessly into the top or the side walls of our cooling appliances, LED lighting is very efficient and gives maximum illumination of your fridge and freezer.

**multiAirflow System** Airflow works with the electronics to optimise the air circulation within the fridge and freezer compartments to ensure even cooling throughout the appliance. This means wherever you place your groceries it will cool them quickly no matter where they are placed. The back wall of the appliance has open vents which work with the cooling circuit to draw cold air into each compartment.

**noFrost** Intelligent noFrost technology completely stops the build-up of frost and ice – for life. Not only a time saver, noFrost also ensures that the cavity space within is not compromised by frost build-up.

**Telescopic rails** Easy to access drawers with telescopic rails. Powerful enough to take the weight of drawers and their contents, telescopic rails provide convenience when preparing meals.

**touchControl** Control all functions of the fridge freezer with a gentle touch using the clearly arranged touchControl panel.

**waterDispenser** Models with a waterDispenser are able to dispense water thanks to a plumbed water connection. For fresh and cool drinking water whenever you need it.

**Wine rack** A wine rack is available on some models which is the perfect place to store wine of all varieties and make the best use of space in your fridge.

**5 Year Warranty** Available on our range of American style side by side fridge freezers, the 5 year warranty covers parts and labour. Also available on our range of freestanding appliances.

iSensoric technology provides a perfect condition for long-lasting food freshness.

Keeping food fresh for longer is now even easier thanks to fridge-freezers with iSensoric, fitted with intelligent sensors and software. The sensors work together in different constellations to maintain the ideal climate and adapt conditions to the food stored inside.

With hyperFresh technology, you can enjoy whatever comes up in your life as it provides the ideal environment to keep your food fresh. Meanwhile, noFrost freezers contain sensors that provide constant information factors such as ambient temperature and the number of door openings to define defrosting cycles. For the freezer compartment, this means you will never have to defrost again.

Model shown: KG39FSB45 freestanding fridge freezer

## Other product features

### airFresh filter

Shelves separate food, the airFresh filter separates smells, ensuring that the fridge smells fresh at all times.

### antiFingerprint

Keeps the fridge looking sleek and spotless on the outside, adding to the overall ambiance of the kitchen.

### bigBox

The bigBox has the capacity for storing whole frozen turkeys, as well as the height to hold dessert glasses upright, ideal for the holidays and entertaining alike.

### Condenser technology

Fully integrated on both sides of the appliance, models with latest condenser technology offer flexibility and convenience when positioning your fridge as no distance is needed between the wall or the furniture for ventilation, offering a Perfect Fit solution. Valuable space can be kept when building the appliance into a cabinet and you don't need to worry about condensation damaging the kitchen furniture. The condenser is also more silent and maintenance free.

### Easy access shelving zone – single door freezers

Creates additional space whilst delivering the design of an American fridge freezer interior compartment.

### easyLift

Easily adjustable door trays and glass shelves that can be moved even when full. Now that's convenience.

### flexiShelf

Extra height, extra storage space, extra length, flexiShelf gives you the flexibility within your fridge, depending on your needs.

### LED electronic displays

Allows the user precision control over the temperature, ideal to accommodate different types of foods or quantity within the fridge/freezer.

### superCool

Ensures that warmer food entering the fridge does not increase the fridge temperature, which can affect other food.

### superFreeze

superFreezing makes sure that warmer food added to the freezer doesn't raise the freezer temperature, stopping food partially defrosting.

### Wrap around evaporator

This new technology creates more space in the freezer cavity, allowing for more innovations like bigBox for large food items, plus removable glass drawers.

# American fridge freezers

## hyperFresh plus

Be in control with the innovative humidity control, food can last twice as long in the specialist drawer. Not only does this keep in nutrients and minerals that help to create a delicious meal, but as food lasts for longer fewer trips to the supermarket are required – saving you time, effort and money.

## Our stylish iQ700 American fridge freezer with innovative indoor electronics and intelligent noFrost technology.

Experience a truly stunning finish to this black glass American-style fridge freezer with touchControl electronic controls that seamlessly blend into the front panel. With beautiful design also comes more space for your fresh and frozen food finished with bright LED illumination.

## iQ700 KA92NLB35G Black

### American fridge freezer

- Noise level: 43dB
- Net fridge and freezer capacity: 592 litres
- Annual energy consumption: 385kWh
- 4 safety-glass shelves and 2 freezer shelves
- superCool function
- superFreeze function
- hyperFresh plus – adjustable humidity keeps fruit and vegetables fresh up to 2 x longer
- bigBox – capacity for storing whole frozen turkeys, as well as the height to hold dessert glasses upright
- iceTwister for ice cubes on demand
- Dimensions (HxWxD): 175.6 x 91.2 x 73.2cm

## iQ700 KA92DAI20G Stainless steel antiFingerprint

### American fridge freezer

- Noise level: 43dB
- Net fridge and freezer capacity: 541 litres
- Annual energy consumption: 443kWh
- 4 safety-glass shelves and 2 freezer shelves
- superCool function
- superFreeze function
- hyperFresh plus – adjustable humidity keeps fruit and vegetables fresh up to 2 x longer
- bigBox – capacity for storing whole frozen turkeys, as well as the height to hold dessert glasses upright
- Dimensions (HxWxD): 175.6 x 91.2 x 73.2cm

Home connect

WiFi ready

Get more from your appliance with Home Connect

Cooling appliances with Home Connect offer you the ability to control your appliances while you're out of the house; the app offers hints and tips on how to store different types of food. With Home Connect you can also access a range of Siemens style recipes. The iQ500 KG36NH132 Home Connect model also features an internal fridge camera that can be linked to your Home Connect app via your mobile so you can see what's available in your fridge without actually being at home, helping you plan ahead. ## iQ700 KA90DVI20G Stainless steel antiFingerprint

### American fridge freezer

- Noise level: 43dB
- Net fridge and freezer capacity: 533 litres
- Annual energy consumption: 436kWh
- 4 safety-glass shelves and 4 freezer shelves
- superCool function
- superFreeze function
- hyperFresh plus – adjustable humidity keeps fruit and vegetables fresh up to 2 x longer
- Dimensions (HxWxD): 177 x 91 x 72cm

# American fridge freezers

## iQ300 KA90IV120G Stainless steel antiFingerprint

American fridge freezer

- Noise level: 43dB
- Net fridge and freezer capacity: 523 litres
- Annual energy consumption: 432kWh
- 4 safety-glass shelves and 2 freezer shelves
- superCool function
- superFreeze function
- 4L water tank built-in to shelf – manual fill, no plumbing required
- Dimensions (HxWxD): 177 x 91 x 72cm

## iQ300 KA90NV120G Stainless steel antiFingerprint

American fridge freezer

- Noise level: 44dB
- Net fridge and freezer capacity: 573 litres
- Annual energy consumption: 475kWh
- 4 safety-glass shelves and 4 freezer shelves
- superCool function
- superFreeze function
- Dimensions (HxWxD): 177 x 91 x 72cm

## Fresher food for longer with iSensoric.

The unique quality that distinguishes the iSensoric technology is the connection of all the sensors.

### 1 freshSense

Fresh food, guaranteed for longer. With conventional fridges, varying surrounding temperatures and the continuous opening of the refrigerator door lead to temperature changes inside the appliance. To ensure this does not affect your food, iSensoric immediately reacts. The freshSense sensors activate the moment a change in temperature is registered, for example when products are stored away, and compensates for this change in an instant. Therefore the temperature always remains within the optimum range and your food stays fresh and delicious for longer.

### 2 noFrost technology

Defrosting the freezer is now done automatically. Siemens fridge freezers and freezers with iSensoric are equipped with intelligent sensor-controlled technology to save the hassle of defrosting the freezer. An air-circulation system guides the humidity to the outside of the refrigerator into an external evaporation tray, and sensors measure the degree of humidity and any frost production – ensuring the appliance is periodically defrosted without the need to turn off the appliance or empty it out. Also, ice no longer forms on the inside of the refrigerator, and the appliance's energy consumption remains consistently low.

### 3 touchControl

Total control at your fingertips. Thanks to the highly sensitive sensors, even the slightest touch of the touchControl display is registered and all the functions of the fridge freezer – such as temperature, alarm and holiday mode – can be immediately set. Furthermore, the touchControl display is also the communications hub for iSensoric, as this is where the data is collected from the various sensors for controlling other functions. For more convenience, the freezer and fridge can be controlled separately thanks to their independent cooling circuits.

### 4 Inverter motor

The intelligent inverter technology is a clever combination of the inverter motor and iSensoric. The sensors register every slight change in temperature or humidity inside the refrigerator, for example when the door is opened or warm food is stored. This information is then passed to the inverter motor, which adapts its need for energy accordingly. This means you can cool food intelligently and energy-efficiently, and thanks to the high-quality inverter motor, incredibly quietly.

# Freestanding fridge freezers

**hyperFresh premium**  
The 0°C drawer is especially designed for the storage needs of fish and meat. Keep them fresher in ideal conditions near 0°C for up to twice as long.

## The perfect fit for your kitchen.

Whether you would like to save space or create a seamless look for your kitchen, there are a range of versatile cooling products in the Siemens range to choose from. Some of the Siemens range for 2018 feature our Latest Condenser Technology\* which means space around the appliance is not required for ventilation purposes, making these products perfect should they need to be fitted into tight spaces or form part of an overall sleek built-in look.

**No distance**  
This means that a 60cm refrigeration appliance will fit perfectly into that exact niche and the special door hinges mean the door will open within that space. So it's easy to update your current model with an efficient Siemens fridge freezer.

**Tried and tested**  
All Siemens fridges and freezers are built to last. And rigorous testing ensures that our products meet all the requirements of our customers. Every single one of our appliances is tested before it leaves the factory. For 24 hours a day, components are tested continuously to the maximum tolerance possible for the equivalent lifetime of the appliance.

Our doors are weighted and then opened and closed by the handle 200,000 times during testing to ensure they are robust (200,000 times is equivalent to opening and closing the door 27 times per day for 20 years). Materials are not only tested for suitability and longevity, we also look at how they sound and feel when we use them.

\*Please check individual product descriptions and look for "Latest Condenser Technology" in the product description to see if this feature is included

# Upright single door fridges

## Fresh water and ice on tap.

Plumbed in water at the touch of a button dispensing refreshing ice-cool water and ice both day and night, Siemens puts you in control of your fridge freezer.

### Fresh water and ice both day and night

Providing you with chilled, filtered water and crushed or cubed ice at the touch of a button, the water and ice dispenser built into iQ700 Siemens fridge and freezer is a convenient time saver. Serving you with a refreshing drink whenever you want, the ice dispenser can produce up to 140 ice cubes per day. With LED down lighting on our premium model, the ice and water dispenser is not only luxuriously convenient; it is also classically designed.

### Electronic controls

With easy to use electronic controls Siemens fridge freezers never leave you in the dark. The electronic display allows you to precisely set and change the temperature of your fridge and freezer and select certain modes, such as Holiday Mode, putting the power of your new fridge freezer at your finger tips.

### Stunning on the outside, beautiful on the inside

With a streamline design on the outside, Siemens fridge freezers are just as elegant inside. Superbly designed, with conveniently placed LED lighting, easyLift door shelves, a flexiShelf that folds down if you need additional shelf storage or neatly folds away if you don't. The bigBox in the freezer is perfect for stacking several pizzas or those pre-filled dessert glasses you need chilling for your dinner party; there's a place for everything.

Model shown: GS36DBI2VG

Model shown: KS36WBI3P

**You never need to defrost the freezer again**  
Who has time to defrost the freezer? Those with a Siemens noFrost freezer do, because there simply is no need to ever de-ice. Appliances with this feature have an air circulation system to remove humidity to stop frost and ice building up on the freezer walls. So you can enjoy fresher food, no more soggy packaging and a hassle free freezer.

## iQ700 KS36FPI4P Stainless steel antiFingerprint

Freestanding fridge

- Fridge capacity: 300 litres

## Contact our customer services team.

Purchasing a Siemens appliance gives you access to our expert customer service team for the lifetime of your appliance. With 2 year and 5 year manufacturer's warranties on offer\*, multi-award winning products to choose from and assistance from an outstanding customer service department, you can be assured that the appliance you are buying will offer peace of mind.

### Expert advice

Siemens customer service staff are full of knowledge and expertise, whether you have a question about your Siemens appliance, want to order replacement spare parts or require an engineer to repair your appliance. With engineers based locally across the country\*\*, no one is better suited to help, and all Siemens repairs are analysed in advance so that we bring the correct replacement spare parts likely to be needed on the first visit\*\*\*.

### Original replacement spare parts

Order replacement parts online and access exploded diagrams to help you locate the correct part. As a manufacturer we only use original spare parts and we keep a comprehensive range of parts available for up to ten years to ensure the quality of your appliance. You can also browse appliance diagrams online to locate and purchase the parts you need.

### Accessories and cleaning products

You can order accessories and cleaning products quickly and easily via our Siemens online shop. The Siemens shop has an extensive selection of accessories to help you get the most out of your Siemens appliance. With our range of tested and approved cleaning and care products you can keep your appliance looking great and working at its optimum performance. You can quickly order accessories and cleaning products by telephone on 0344 892 8999 (option 2) or by visiting our online shop at [www.siemens-home.bsh-group.com/uk/shop](http://www.siemens-home.bsh-group.com/uk/shop).

### Arrange a Siemens engineer visit

Need to arrange an engineer visit? No problem. Simply call our customer service team to discuss the problem with your appliance and if needed we will arrange a home appointment with an engineer at a time and date that's convenient for you. Siemens appliances are built to the highest standards but if you do require an engineer to repair your appliance, we are here to help, whether your appliance is inside or outside the manufacturer's warranty period. You can book an appointment by telephone on 0344 892 8999 (option 1) or you can book online.

Our engineers are employed and trained by Siemens and are based locally around the country\*\*.

No one knows our appliances better, and all repairs are analysed in advance by our technical team so that the parts likely to be needed to complete the repair are sent to the engineer's van the night before the visit\*\*\*.
