Siemens Home Appliances

Hobs

Elevate cooking into an experience.

The next evolution of your kitchen is here.

When it comes to cooking, there are a few key ingredients to making a great meal that's sure to impress your guests: passion, fresh food, sleek modern design and not forgetting, innovative technology. The new gas cooktops from Siemens tout the most advanced and intuitive features—lifting your cooking to the next level.

Turn up the heat exactly the way you want it.

Nine precise levels for ultimate flame control, thanks to stepFlame Technology.

No more bending to check the power of your flame, no more hoping that it is at the right heat level. From now on, you'll get exactly the heat and the flame you need when you cook with stepFlame Technology. It is as easy and quick to operate as it sounds: simply turn the knob to the precisely defined level of heat you want. Your dinner parties will never be the same again. For more information about stepFlame Technology and our range of Siemens Gas Cooktops, go to siemens-home.com/stepFlame

Here's one thing you can be sure of: groundbreaking precision.

If you've ever had trouble achieving the flame level and cooking results you want, the stepFlame Technology from Siemens gas cooktops is set to change things. Offering revolutionary precision that gives you full control of heat

quickly, you will enjoy the freedom to experiment and whip up your next signature dish. Experience confidence in the kitchen like never before with the new Siemens Gas Cooktops.

Redesigned for the modern kitchen.

Our new cooktops have been completely redesigned to elevate your cooking. From advanced functions for precise results to our sturdy control knobs perfectly paired with premium cast iron pan supports in an elegant design, your palate and eyes will be pleased in equal measure.

Expand your possibilities with the dualWok Burner.

The dualWok Burner allows for more flexibility in the kitchen—keep meals warm or prepare a wide variety of dishes, even in large quantities. With its powerful inner and outer burner rings, you will always get the desired results.

Cook your own way.

Hoods

Outstanding performance, intelligently designed.

Siemens hoods have the style quotient you would typically expect from a Siemens appliance. However, it is their sheer effectiveness at dealing with unwanted moisture, cooking odours and noise levels that set them apart. Thanks to our iQdrive motor that enhances your cooking experience exponentially. Your kitchen is not only a place to cook, it's a place to spend quality time with your family and friends. Siemens hoods work hard to keep your kitchen space fresh, and full of cleaner air whilst also providing ambient lighting. Whether you choose a top-of-the-range iQ700 hood, the state-of-the-art downdraft hood, a classic chimney hood or something built-into your kitchen cupboards, all Siemens hoods come with a quiet and most energy efficient motor so you can enjoy your living space.

Island Hoods

Coffee Centre

Meant for the coffee connoisseurs.

The finishing touch for your kitchen or dining area, the Siemens coffee machine is the ultimate appliance for coffee lovers and those who like to entertain. The central control dial and TFT full colour display with interactive menu continues the iQ700 design story, whilst the concealed milk container achieves the classically understated Siemens look.

The sophisticated, fully automatic built-in iQ700 Coffee Center offers a wide selection of beverages, ranging from a strong and aromatic ristretto to an impeccably made, milk-froth cappuccino - all available at the touch of the oneTouch Function. With all these options, it's truly your Barista at home. For a life less ordinary, indeed!

Ristretto | Espresso | Espresso Macchiato | Café Crème | Cappuccino | Latte | Macchiato | Café Latte | Milk froth | Warm milk | Hot water for varieties of tea

Warmer Drawers

A Siemens warmer drawer is the ideal addition to any kitchen.

We know you believe in less ordinary kitchen experiences! So whether you are keeping food warm, preheating crockery, thawing delicate frozen foods or simply in need of extra storage space, a fully coordinated Siemens warmer or accessory drawer is a must-have for your kitchen. The iQ700 range also has a push and pull mechanism, so the door opens and closes with just a touch of a button.

Refrigerators

The extraordinary Siemens refrigerator.

We at Siemens believe in innovating and developing new technologies as an integral part of our tradition. We have innovations such as fridges that can be controlled according to 4 climate zones to the exact degree, smart technology that ensures the stored fruits and vegetables are fresh and doesn't get affected by the extreme outside temperature, refrigerators that maintain cooling close to 0 degree emulating the modern day refrigeration units. Our best-known freshness innovations include freshSense, vitaFresh Plus, freshProtectbox. These are known to keep your food fresh at all given time. It's our endeavour to provide products that are not technically advanced but aesthetically most appealing too. A reason why, our designers focus on creating simple and minimalistic solutions worldwide. The outcome of this is a range of refrigerators that are both functional and modern and provides the coolest kitchen experience.

The cooling system with multiple possible combinations.

The Siemens aCool & coolConcept series of refrigerators provide all the benefits of a modern food storage system required by you for your lifestyle. The various fully-integral cooling appliances, including wine climate cabinets, can be combined in various ways to form an elegant cooling section in your kitchen in line with your requirement. Multiple combinations such as French Door, Fridge-Freezers, Fridge-Freezer-Wine Cooler, Four-Door, Three-Door, Bottom Freezer, Under Counter Fridge-Freezer, allow you to customize designs to suit your individual taste and needs.

Dishwashers

Upgrade your lifestyle with Siemens Dishwashers.

With state-of-the-art technology, the new Siemens built-in dishwashers make washing and drying faster and more flexible than ever. The premium range of dishwashers boast of the patented Zeolith® drying technology which optimises water usage to make your kitchen experience more convenient for your urban lifestyle. With their neat and clean built-in design, they blend in perfectly with the rest of your Siemens built-in kitchen.

Zeolith®: A leap in super-efficient drying technology.

Faster drying and lower energy consumption naturally

The dishwasher features a special container of Zeolith®, a mineral with the ability to absorb moisture and convert it into heat. It facilitates a faster drying process, which reduces time taken and energy consumed. This brings the energy consumption down to 0.73 kWh - the world's best energy consumption. Hence the Siemens dishwasher has been awarded the 'Innovative Prize for Climate and Environment' by the German government.

Lifelong drying

The Zeolith® minerals are stored in the depths of the dishwasher and thanks to the regeneration process, it keeps on working for the entire lifetime of the dishwasher.

There's more to a Siemens dishwasher than just a dishwasher.

Fully integrated

Subtly brilliant, the Fully Integrated Dishwashers from Siemens come with pure, clean design. And guess what, they are practically invisible. Basking in its own understated glory and underscoring your kitchen's design. The front panel matches the kitchen cabinets, disguising the entire front of the appliance. The control and display elements are located on the top edge of the door, catching your eye only when you open the dishwasher. Innovative technology couldn't be any more discreet.

Semi-integrated

You choose the material. You choose the colour. It's your dishwasher, your way. The Semi-integrated dishwashers from Siemens blend perfectly into your kitchen. The high-quality control panel of the dishwasher remains clearly visible. It comes with superior Siemens design and convenient access to the numerous functions and programmes.

Free-standing

Simplicity at its best! Easy to set up and install so that you can enjoy all the convenience. Loaded with an array of innovative functions and programmes. Free-standing dishwashers are attractively designed with a worktop, base, and side walls in the same colour as the front. It looks great no matter where you put it and don't have to hide it in a recess. The popular choices of placing a dishwasher are near the sink for easy accessibility or in the utility area of the kitchen.

Dishwashers

Laundry solutions

Siemens innovation for complete laundry solutions.

A combination of aesthetically pleasing design with ground breaking innovation, truly takes the humble chore of washing clothes into a whole new dimension.

sensoFresh: Removes odour without washing.

Hygienically clean laundry even at low temperatures: hygiene Programme

The hygiene Programme is particularly suitable for delicate textiles that cannot be washed in a high-temperature wash programme. Thanks to the use of active oxygen, the laundry gets hygienically clean even at low temperatures down to 40°C.

Effective odour removal with active oxygen: sensoFresh Programme

Get rid of odours such as body odour, cigarette smoke or kitchen smells - the sensoFresh Programme provides odour elimination in short time, even for sensitive and non-washable textiles. Active oxygen neutralises smells in just 30 to 45 minutes, depending on the intensity of the odour.

Designs where form follows function.

Siemens is known for its contemporary yet timeless iconic design. Siemens laundry products just don't look fantastic – they are fantastic.

Built-in

Subtly brilliant, the built-in washing machine or washer dryer from Siemens come with pure, clean design. In addition, guess what, they are practically invisible. Basking in its own understated glory and underscoring your kitchen's design. The front panel matches the furniture, disguising the entire front of the appliance. The control and display elements are located inside, catching your eye only when you open the washing machine. Innovative technology couldn't be any more discreet.

Built under / Free-standing

Simplicity at its best! Easy to set up and install so that you can enjoy all the convenience. Loaded with an array of innovative functions and programmes. Free-standing or built under washing machines, tumble dryers and washer dryers are attractively designed with a worktop, base, and side walls in the same colour as the front. It looks great no matter where you put it and don't have to hide it in a recess.
